## unit 1

**Basic Concepts in Nursing 2****1 Health Care Delivery and Nursing Practice 4**

The Health Care Industry and the  
Nursing Profession 5  
Nursing Defined 5  
The Patient/Client: Consumer of Nursing and  
Health Care 5

Health Care in Transition 5  
Health, Wellness, and Health Promotion 6  
Health 6  
Wellness 6  
Health Promotion 6

Influences on Health Care Delivery 6  
Population Demographics 7  
Changing Patterns of Disease 7  
Advances in Technology and Genetics 8  
Demand for Quality Health Care 8  
Alternative Health Care Delivery Systems 9

Roles of the Nurse 9  
Practitioner Role 9  
Leadership Role 10  
Research Role 10

Models of Nursing Care Delivery 10  
Community-Based Nursing and Community-  
Oriented/Public Health Nursing 10  
Expanded Nursing Roles 11  
Interdisciplinary Collaborative Practice 12

**2 Community-Based Nursing Practice 14**

Community-Based Care 15  
Home Health Care 15  
Nursing in the Home Setting 16  
Discharge Planning for Home Care 17  
Community Resources and Referrals 17  
Home Health Visits 17

Other Community-Based Health Care Settings 19  
Ambulatory Settings 19  
Occupational Health Programs 19  
School Health Programs 20  
Community Nurse-Managed Centers 20  
Care for the Homeless 20

**3 Critical Thinking, Ethical Decision Making,  
and the Nursing Process 22**

Critical Thinking 23  
Rationality and Insight 23  
Components of Critical Thinking 23  
Critical Thinking in Nursing Practice 23  
Ethical Nursing Care 25

Ethics Versus Morality 25  
Ethics Theories 25  
Approaches to Ethics 25  
Moral Situations 25  
Types of Ethical Problems in Nursing 26  
Preventive Ethics 28  
Ethical Decision Making 29  
The Nursing Process 29  
Definition 29  
Using the Nursing Process 30

**4 Health Education and Health Promotion 41**

Health Education Today 42  
Purpose of Health Education 42  
Adherence to the Therapeutic Regimen 42  
Gerontologic Considerations 43

The Nature of Teaching and Learning 43  
Learning Readiness 43  
The Learning Environment 45  
Teaching Techniques 45  
Teaching Special Populations 45

The Nursing Process in Patient Teaching 47  
Assessment 47  
Nursing Diagnosis 47  
Planning 48  
Implementation 48  
Evaluation 48

Health Promotion 49  
Definition 49  
Health and Wellness 49  
Health Promotion Models 49  
Components of Health Promotion 50

Health Promotion Throughout the Lifespan 51  
Adolescents 51  
Young and Middle-Aged Adults 51  
Gerontologic Considerations 52  
Nursing Implications 53

**5 Adult Health and Nutritional Assessment 55**

Considerations for Conducting a Health History  
and Physical Assessment 56  
The Role of the Nurse 56  
Communicating Effectively 56  
Ethical Use of History or Physical  
Examination Data 56  
Increasing Use of Technology 56

Health History 57  
The Informant 57  
Components of the Health History 57  
Other Health History Formats 64  
Physical Assessment 64  
Examination Considerations 65

Components of the Physical Examination	65
Nutritional Assessment	67
Lifespan Considerations	68
Components of Nutritional Assessment	68
Factors Influencing Nutritional Status in Various Situations	71
Analysis of Nutritional Status	73
Assessment in the Home and Community	73

## unit 2

### Biophysical and Psychosocial Concepts in Nursing Practice 76

#### 6 Homeostasis, Stress, and Adaptation 78

Fundamental Concepts	79
Steady State	79
Stress and Adaptation	79
Overview of Stress	80
Types of Stressors	80
Stress as a Stimulus for Disease	80
Psychological Responses to Stress	80
Physiologic Response to Stress	81
Maladaptive Responses to Stress	84
Indicators of Stress	84
Nursing Implications	85
Stress at the Cellular Level	85
Control of the Steady State	86
Cellular Adaptation	86
Cellular Injury	87
Cellular Response to Injury: Inflammation	89
Cellular Healing	90
Nursing Implications	91
Stress Management: Nursing Interventions	91
Promoting a Healthy Lifestyle	91
Enhancing Coping Strategies	92
Teaching Relaxation Techniques	92
Educating About Stress Management	93
Enhancing Social Support	93
Recommending Support and Therapy Groups	93

#### 7 Individual and Family Considerations Related to Illness 96

Holistic Approach to Health and Health Care	97
The Brain and Physical and Emotional Health	97
Mental Health and Emotional Distress	97
Anxiety	98
Posttraumatic Stress Disorder	99
Depression	100
Substance Abuse	101
Family Health and Distress	103
Nursing Implications	103
Loss and Grief	104
Nursing Implications	104
Death and Dying	105
Spirituality and Spiritual Distress	105
Nursing Implications	105

#### 8 Perspectives in Transcultural Nursing 108

Cultural Concepts	109
Subcultures	109
Minorities	110
Transcultural Nursing	110
Culturally Competent Nursing Care	110
Cross-Cultural Communication	111
Culturally Mediated Characteristics	112
Space and Distance	113
Eye Contact	113
Time	113
Touch	113
Observance of Holidays	113
Diet	114
Biologic Variations	114
Complementary and Alternative Therapies	114
Causes of Illness	115
Biomedical or Scientific	115
Naturalistic or Holistic	115
Magico-Religious	116
Folk Healers	116
Cultural Assessment	116
Additional Cultural Considerations:	
Know Thyself	116
Health Disparities	117
The Future of Transcultural Nursing Care	117

#### 9 Genetics and Genomics Perspectives in Nursing 119

Genomic Framework for Nursing Practice	120
Integrating Genetic and Genomic Knowledge	121
Genes and Their Role in Human Variation	121
Inheritance Patterns	124
Chromosomal Differences and Genetic Conditions	126
Genetic and Genomic Technologies in Practice	127
Genetic Testing	128
Genetic Screening	128
Testing and Screening for Adult-Onset Conditions	128
Personalized Genomic Treatments	132
Applications of Genetics and Genomics in Nursing Practice	134
Genetics and Genomics in Health Assessment	134
Genetic Counseling and Evaluation Services	137
Ethical Issues	141

#### 10 Chronic Illness and Disability 144

Overview of Chronicity	145
Definition of Chronic Conditions	145
Prevalence and Causes of Chronic Conditions	145
Characteristics of Chronic Conditions	147
Implications of Managing Chronic Conditions	148
Phases of Chronic Conditions	148
Nursing Care of Patients With Chronic Conditions	149
Applying the Nursing Process Using the Phases of the Chronic Illness System	150

Home and Community-Based Care	151	Other Aspects of Health Care of the Older Adult	222
Nursing Care for Special Populations With Chronic Illness	152	Elder Neglect and Abuse	222
Overview of Disability	152	Social Services	223
Definitions of Disability	152	Health Care Costs of Aging	223
Prevalence of Disability	153	Home Health Care	223
Characteristics of Disability	153	Hospice Services	224
Federal Legislation	155	Aging with a Disability	224
Right of Access to Health Care	155	Ethical and Legal Issues Affecting the Older Adult	224
Barriers to Health Care	157		
Federal Assistance Programs	160		
Nursing Care of Patients With Disabilities	160		
Nursing Considerations			
During Hospitalization	160		
Health Promotion and Prevention	161		
Significance of “People-First” Language	161		
Gerontologic Considerations	161		
Disability in Medical-Surgical Nursing Practice	162		
Home and Community-Based Care	162		
<b>11 Principles and Practices of Rehabilitation</b>	<b>166</b>		
Americans With Disabilities Act	168		
Patients’ Reactions to Disability	168		
The Rehabilitation Team	169		
Areas of Specialty Rehabilitation	169		
Assessment of Functional Ability	170		
Disability and Sexuality Issues	194		
Fatigue	194		
Complementary and Alternative Therapies	194		
Promoting Home and Community-Based Care	195		
Teaching Patients Self-Care	195		
Continuing Care	195		
<b>12 Health Care of the Older Adult</b>	<b>200</b>		
Overview of Aging	201		
Demographics of Aging	201		
Health Status of the Older Adult	201		
Nursing Care of the Older Adult	202		
Theories of Aging	202		
Age-Related Changes	202		
Physical Aspects of Aging	203		
Psychosocial Aspects of Aging	209		
Cognitive Aspects of Aging	211		
Pharmacologic Aspects of Aging	212		
Mental Health Problems in the Older Adult	213		
Depression	213		
Delirium	214		
Dementia	217		
Geriatric Syndromes	220		
Impaired Mobility	220		
Dizziness	220		
Falls and Falling	220		
Urinary Incontinence	221		
Increased Susceptibility to Infection	221		
Altered Pain and Febrile Responses	222		
Altered Emotional Impact	222		
Altered Systemic Response	222		
		<b>unit 3</b>	
		<b>Concepts and Challenges in Patient Management</b>	<b>228</b>
		<b>13 Pain Management</b>	<b>230</b>
		Importance of Pain Assessment and Management	231
		Types of Pain	231
		Classic Categories of Pain	231
		Pain Classified by Location	232
		Pain Classified by Etiology	232
		Harmful Effects of Pain	232
		Effects of Acute Pain	232
		Effects of Chronic Pain	232
		Pathophysiology of Pain	232
		Nociceptors	232
		Peripheral Nervous System	234
		Central Nervous System	234
		Gate Control Theory	235
		Factors Influencing Pain Response	235
		Past Experience	236
		Anxiety and Depression	236
		Culture	236
		Gerontologic Considerations	236
		Gender	237
		The Nurse’s Role in Assessment and Care of Patients with Pain	237
		Assessment	237
		Nursing Care	240
		Pain Management Strategies	242
		Premedication Assessment	242
		Agents Used to Treat Pain	244
		Approaches for Using Analgesic Agents	248
		Routes of Administration	251
		Placebo Effect	254
		Gerontologic Considerations	254
		Promoting Home and Community-Based Care	255
		Activities to Promote Comfort	256
		Neurologic and Neurosurgical Approaches to Pain Management	258
		Evaluating Pain Management Strategies	259
		<b>14 Fluid and Electrolytes: Balance and Disturbance</b>	<b>263</b>
		Fundamental Concepts	264
		Hypervolemia	273
		Sodium Imbalances	275
		Potassium Imbalances	280
		Calcium Imbalances	284

- Magnesium Imbalances 288
- Phosphorus Imbalances 290
- Chloride Imbalances 292
- Acute and Chronic Metabolic Acidosis  
(Base Bicarbonate Deficit) 294
- Acute and Chronic Metabolic Alkalosis  
(Base Bicarbonate Excess) 295
- Acute and Chronic Respiratory Acidosis  
(Carbonic Acid Excess) 296
- Acute and Chronic Respiratory Alkalosis  
(Carbonic Acid Deficit) 296
- Mixed Acid–Base Disorders 297
- Parenteral Fluid Therapy 298
- 15 Shock and Multiple Organ  
Dysfunction Syndrome 312**
- Overview of Shock 313
- Stages of Shock 314
- General Management Strategies in Shock 320
- Hypovolemic Shock 322
- Cardiogenic Shock 325
- Circulatory Shock 327
- Multiple Organ Dysfunction Syndrome 332
- Promoting Home and Community-Based Care 333
- 16 Oncology: Nursing Management in Cancer Care 336**
- Epidemiology of Cancer 337
- Pathophysiology of the Malignant Process 338
- Detection and Prevention of Cancer 342
- Diagnosis of Cancer 345
- Tumor Staging and Grading 345
- Management of Cancer 346
- Nursing Care of Patients With Cancer 366
- Cancer Survivorship 391
- 17 End-of-Life Care 395**
- Nursing and End-of-Life Care 396
- Settings for End-of-Life Care 398
- Nursing Care of Terminally Ill Patients 402
- Nursing Care of Patients Who Are Close to Death 414
- Coping With Death and Dying: Professional  
Caregiver Issues 418

## unit 4

### Perioperative Concepts and Nursing Management 422

- 18 Preoperative Nursing Management 424**
- Preoperative Nursing 425
- Advances in Technology and Anesthesia 425
- Surgical Classifications 425
- Preadmission Testing 425
- Special Considerations During the  
Preoperative Period 425
- Informed Consent 428
- Preoperative Assessment 428
- General Preoperative Nursing Interventions 434

- Immediate Preoperative Nursing Interventions 438
- Expected Patient Outcomes 439

### 19 Intraoperative Nursing Management 442

- The Surgical Team 443
- The Surgical Environment 446
- The Surgical Experience 448
- Potential Intraoperative Complications 455

### 20 Postoperative Nursing Management 461

- Care of the Patient in the Postanesthesia  
Care Unit 462
- Care of the Hospitalized Postoperative Patient 468

## unit 5

### Gas Exchange and Respiratory Function 484

#### 21 Assessment of Respiratory Function 486

- Anatomic and Physiologic Overview 487
- Assessment 495
- Diagnostic Evaluation 507

#### 22 Management of Patients With Upper Respiratory Tract Disorders 517

- Rhinitis 518
- Viral Rhinitis (Common Cold) 520
- Rhinosinusitis 521
- Pharyngitis 526
- Tonsillitis and Adenoiditis 528
- Peritonsillar Abscess 529
- Laryngitis 530
- Epistaxis (Nosebleed) 534
- Nasal Obstruction 535
- Fractures of the Nose 536
- Laryngeal Obstruction 537
- Cancer of the Larynx 537

#### 23 Management of Patients With Chest and Lower Respiratory Tract Disorders 551

- Pneumonia 554
- Aspiration 565
- Severe Acute Respiratory Syndrome 567
- Pulmonary Tuberculosis 567
- Lung Abscess 572
- Pleurisy 573
- Pleural Effusion 574
- Empyema 575
- Pulmonary Edema 576
- Acute Respiratory Failure 576
- Acute Respiratory Distress Syndrome 577
- Pulmonary Arterial Hypertension 579
- Pulmonary Heart Disease (Cor Pulmonale) 581
- Pulmonary Embolism 582
- Sarcoidosis 587
- Lung Cancer (Bronchogenic Carcinoma) 588
- Tumors of the Mediastinum 592

- Blunt Trauma 593
  - Penetrating Trauma: Gunshot and Stab Wounds 596
  - Pneumothorax 596
  - Cardiac Tamponade 599
  - Subcutaneous Emphysema 599
  - 24 Management of Patients With Chronic Pulmonary Disease 601**
    - Chronic Obstructive Pulmonary Disease 602
    - Bronchiectasis 614
    - Asthma 620
    - Status Asthmaticus 630
    - Cystic Fibrosis 631
  - 25 Respiratory Care Modalities 635**
    - Incentive Spirometry (Sustained Maximal Inspiration) 640
    - Mini-Nebulizer Therapy 641
    - Intermittent Positive-Pressure Breathing 642
    - Chest Physiotherapy 642
    - Emergency Management of Upper Airway Obstruction 645
    - Endotracheal Intubation 646
    - Tracheostomy 648
    - Mechanical Ventilation 651
    - Preoperative Management 664
    - Postoperative Management 666
- unit 6**
- Cardiovascular, Circulatory, and Hematologic Function 682**
- 26 Assessment of Cardiovascular Function 684**
    - Anatomic and Physiologic Overview 685
      - Anatomy of the Heart* 685
      - Function of the Heart* 687
    - Gerontologic Considerations* 690
    - Gender Considerations* 690
  - Assessment of the Cardiovascular System 691
    - Health History* 691
    - Physical Assessment* 697
  - Diagnostic Evaluation 705
    - Laboratory Tests* 705
    - Chest X-Ray and Fluoroscopy* 707
    - Electrocardiography* 707
    - Cardiac Stress Testing* 709
    - Echocardiography* 710
    - Radionuclide Imaging* 711
    - Cardiac Catheterization* 713
    - Electrophysiologic Testing* 715
    - Hemodynamic Monitoring* 715
  - 27 Management of Patients With Dysrhythmias and Conduction Problems 720**
    - Dysrhythmias 721
      - Normal Electrical Conduction* 721
      - The Electrocardiogram* 721
      - Analyzing the Electrocardiogram Rhythm Strip* 725
  - Adjunctive Modalities and Management 741
    - Cardioversion and Defibrillation* 741
    - Pacemaker Therapy* 743
    - Implantable Cardioverter Defibrillator* 747
    - Electrophysiologic Studies* 751
    - Cardiac Conduction Surgery* 752
  - 28 Management of Patients With Coronary Vascular Disorders 755**
    - Coronary Atherosclerosis 756
    - Angina Pectoris 762
    - Acute Coronary Syndrome and Myocardial Infarction 768
    - Surgical Procedures: Coronary Artery Revascularization 779
  - 29 Management of Patients With Structural, Infectious, and Inflammatory Cardiac Disorders 797**
    - Mitral Valve Prolapse 798
    - Mitral Regurgitation 799
    - Mitral Stenosis 800
    - Aortic Regurgitation 801
    - Aortic Stenosis 801
    - Nursing Management: Valvular Heart Disorders 802
    - Valve Replacement 804
    - Nursing Management: Valvuloplasty and Replacement 806
    - Septal Defects 807
    - Cardiomyopathy 807
    - Rheumatic Endocarditis 814
    - Infective Endocarditis 815
    - Myocarditis 817
    - Pericarditis 818
  - 30 Management of Patients With Complications From Heart Disease 823**
    - Cardiac Hemodynamics 824
    - Chronic Heart Failure 825
    - Pulmonary Edema 839
    - Thromboembolism 841
    - Pericardial Effusion and Cardiac Tamponade 842
    - Cardiac Arrest 843
  - 31 Assessment and Management of Patients With Vascular Disorders and Problems of Peripheral Circulation 847**
    - Anatomic and Physiologic Overview 848
    - Assessment 852
    - Diagnostic Evaluation 852
    - Peripheral Arterial Occlusive Disease 863
      - Upper Extremity Arterial Occlusive Disease 866
    - Thromboangiitis Obliterans (Buerger's Disease) 866
    - Aortoiliac Disease 867

- Aneurysms 868
- Other Aneurysms 871
- Dissecting Aorta 871
- Arterial Embolism and Arterial Thrombosis 872
- Raynaud's Phenomenon 873
- Chronic Venous Insufficiency/Postthrombotic Syndrome 880
- Leg Ulcers 881
- Varicose Veins 884
- Lymphangitis and Lymphadenitis 886
- Lymphedema and Elephantiasis 886
- 32 Assessment and Management of Patients With Hypertension 889**
  - Hypertension 890
    - Pathophysiology 890
    - Clinical Manifestations 891
    - Assessment and Diagnostic Findings 892
    - Medical Management 892
  - Hypertensive Crises 900
- 33 Assessment and Management of Patients With Hematologic Disorders 903**
  - Assessment and Diagnostic Evaluation 909
  - Hypoproliferative Anemias 914
  - Hemolytic Anemias 920
  - Polycythemia Vera 927
  - Secondary Polycythemia 928
  - Neutropenia 929
  - Lymphopenia 930
  - Acute Myeloid Leukemia 933
  - Chronic Myeloid Leukemia 934
  - Acute Lymphocytic Leukemia 935
  - Chronic Lymphocytic Leukemia 936
  - Hodgkin Lymphoma 941
  - Non-Hodgkin Lymphomas 943
  - Primary Thrombocythemia 947
  - Secondary Thrombocytosis 948
  - Thrombocytopenia 949
    - Idiopathic Thrombocytopenic Purpura 950
  - Platelet Defects 951
  - Hemophilia 951
  - Von Willebrand's Disease 954
  - Vitamin K Deficiency 954
  - Complications of Anticoagulant Therapy 955
  - Disseminated Intravascular Coagulation 955
  - Thrombotic Disorders 959
  - Hyperhomocysteinemia 959
  - Antithrombin Deficiency 959
  - Protein C Deficiency 960
  - Protein S Deficiency 960
  - Activated Protein C Resistance and Factor V Leiden Mutation 960
  - Acquired Thrombophilia 960

## unit 7

**Digestive and Gastrointestinal Function 976**

- 34 Assessment of Digestive and Gastrointestinal Function 978**
  - Anatomic and Physiologic Overview 979
    - Anatomy of the Gastrointestinal System 979
    - Function of the Digestive System 980
    - Gerontologic Considerations 982
  - Assessment of the Gastrointestinal System 982
    - Health History 982
    - Physical Assessment 984
  - Diagnostic Evaluation 986
    - Serum Laboratory Studies 986
    - Stool Tests 987
    - Breath Tests 987
    - Abdominal Ultrasonography 987
    - DNA Testing 988
    - Imaging Studies 988
    - Endoscopic Procedures 990
    - Manometry and Electrophysiologic Studies 994
    - Gastric Analysis, Gastric Acid Stimulation Test, and pH Monitoring 995
    - Laparoscopy (Peritoneoscopy) 995
- 35 Management of Patients With Oral and Esophageal Disorders 997**
  - Dental Plaque and Caries 998
  - Dentoalveolar Abscess or Periapical Abscess 1000
  - Malocclusion 1001
  - Temporomandibular Disorders 1002
  - Jaw Disorders Requiring Surgical Management 1002
  - Parotitis 1002
  - Sialadenitis 1003
  - Salivary Calculus (Sialolithiasis) 1003
  - Neoplasms 1003
  - Nursing Management of the Patient With Conditions of the Oral Cavity 1004
    - Achalasia 1011
    - Diffuse Esophageal Spasm 1011
    - Hiatal Hernia 1012
    - Diverticulum 1013
    - Perforation 1013
    - Foreign Bodies 1014
    - Chemical Burns 1014
    - Gastroesophageal Reflux Disease 1014
    - Barrett's Esophagus 1015
    - Benign Tumors of the Esophagus 1015
    - Cancer of the Esophagus 1017
- 36 Gastrointestinal Intubation and Special Nutritional Modalities 1021**
  - Gastrointestinal Intubation 1022
    - Tube Types 1022
    - Nursing Management 1023
  - Gastrostomy and Jejunostomy 1031

- Parenteral Nutrition 1034  
*Establishing Positive Nitrogen Balance* 1034  
*Clinical Indications* 1035  
*Formulas* 1035  
*Initiating Therapy* 1035  
*Administration Methods* 1035  
*Discontinuing Parenteral Nutrition* 1037
- 37 Management of Patients With Gastric and Duodenal Disorders** 1043  
 Gastritis 1044  
 Peptic Ulcer Disease 1047  
 Morbid Obesity 1055  
 Gastric Cancer 1056  
 Gastric Surgery 1060  
 Duodenal Tumors 1062
- 38 Management of Patients With Intestinal and Rectal Disorders** 1067  
 Constipation 1068  
 Diarrhea 1070  
 Fecal Incontinence 1072  
 Irritable Bowel Syndrome 1073  
 Conditions of Malabsorption 1074  
 Appendicitis 1075  
 Diverticular Disease 1077  
 Peritonitis 1080  
 Types of Inflammatory Bowel Disease 1082  
 Management of Chronic Inflammatory Bowel Disease 1084  
 Small Bowel Obstruction 1097  
 Large Bowel Obstruction 1098  
 Colorectal Cancer 1098  
 Polyps of the Colon and Rectum 1107  
 Diseases 1108  
 Nursing Management of Patients With Anorectal Conditions 1110
- unit 8**  
**Metabolic and Endocrine Function** 1114
- 39 Assessment and Management of Patients With Hepatic Disorders** 1116  
 Assessment 1119  
 Diagnostic Evaluation 1120  
 Jaundice 1123  
 Portal Hypertension 1123  
 Ascites 1124  
 Esophageal Varices 1128  
 Hepatic Encephalopathy and Coma 1133  
 Other Manifestations of Hepatic Dysfunction 1137  
 Hepatitis A Virus 1139  
 Hepatitis B Virus 1141  
 Hepatitis C Virus 1144  
 Hepatitis D Virus 1144  
 Hepatitis E Virus 1145
- Hepatitis G Virus and GB Virus-C 1145  
 Toxic Hepatitis 1145  
 Drug-Induced Hepatitis 1145  
 Primary Liver Tumors 1158  
 Liver Metastases 1158  
 Liver Transplantation 1161  
 Liver Abscesses 1165
- 40 Assessment and Management of Patients With Biliary Disorders** 1169  
 Cholecystitis 1171  
 Cholelithiasis 1172  
 Acute Pancreatitis 1181  
 Chronic Pancreatitis 1185  
 Pancreatic Cysts 1190  
 Cancer of the Pancreas 1190  
 Tumors of the Head of the Pancreas 1192  
 Pancreatic Islet Tumors 1193  
 Hyperinsulinism 1194  
 Ulcerogenic Tumors 1194
- 41 Assessment and Management of Patients With Diabetes Mellitus** 1196  
 Hypoglycemia (Insulin Reactions) 1222  
 Diabetic Ketoacidosis 1225  
 Hyperglycemic Hyperosmolar Nonketotic Syndrome 1227  
 Macrovascular Complications 1230  
 Microvascular Complications 1231  
 Diabetic Neuropathies 1235  
 Foot and Leg Problems 1236  
 Management of Hospitalized Patients With Diabetes 1238
- 42 Assessment and Management of Patients With Endocrine Disorders** 1245  
 Assessment 1248  
 Diagnostic Evaluation 1249

### Sensorineural Function 1754

- 58 Assessment and Management of Patients With Eye and Vision Disorders 1756**  
 Assessment 1760  
 Diagnostic Evaluation 1762  
 Low Vision and Blindness 1764  
 Glaucoma 1767  
 Cataracts 1772  
 Keratoconus 1776  
 Corneal Surgeries 1776  
 Refractive Surgeries 1777  
 Retinal Detachment 1779  
 Retinal Vascular Disorders 1780  
 Age-Related Macular Degeneration 1781

- Orbital Trauma 1782  
 Ocular Trauma 1784  
 Dry Eye Syndrome 1786  
 Conjunctivitis 1787  
 Uveitis 1790  
 Orbital Cellulitis 1790  
 Benign Tumors of the Eyelids 1791  
 Benign Tumors of the Conjunctiva 1791  
 Malignant Tumors of the Orbit 1791  
 Malignant Tumors of the Eyelid 1791  
 Malignant Tumors of the Conjunctiva 1791  
 Malignant Tumors of the Globe 1791  
 Enucleation 1792  
 Cytomegalovirus Retinitis 1794  
 Hypertension-Related Eye Changes 1794

### 59 Assessment and Management of Patients With Hearing and Balance Disorders 1801

- Assessment 1804  
 Diagnostic Evaluation 1806  
 Foreign Bodies 1811  
 External Otitis (Otitis Externa) 1812  
 Malignant External Otitis 1812  
 Masses of the External Ear 1813  
 Gapping Earring Puncture 1813  
 Acute Otitis Media 1813  
 Serous Otitis Media 1814  
 Chronic Otitis Media 1814  
 Otosclerosis 1817  
 Middle Ear Masses 1817  
 Motion Sickness 1818  
 Ménière's Disease 1819  
 Benign Paroxysmal Positional Vertigo 1820  
 Tinnitus 1820  
 Labyrinthitis 1820  
 Ototoxicity 1823  
 Acoustic Neuroma 1823

## unit 14

### Neurologic Function 1828

- 60 Assessment of Neurologic Function 1830**  
 Anatomic and Physiologic Overview 1831  
*Cells of the Nervous System 1831*  
*Neurotransmitters 1831*  
*The Central Nervous System 1831*  
*The Peripheral Nervous System 1835*  
*Motor and Sensory Pathways of the Nervous System 1838*  
 Assessment of the Nervous System 1841  
*Health History 1841*  
*Physical Assessment 1842*  
*Gerontologic Considerations 1849*  
 Diagnostic Evaluation 1850  
*Computed Tomography Scanning 1850*  
*Magnetic Resonance Imaging 1850*

- Positron Emission Tomography 1851  
 Single Photon Emission Computed Tomography 1852  
 Cerebral Angiography 1852  
 Myelography 1852  
 Noninvasive Carotid Flow Studies 1853  
 Transcranial Doppler 1853  
 Electroencephalography 1853  
 Electromyography 1853  
 Nerve Conduction Studies 1854  
 Evoked Potential Studies 1854  
 Lumbar Puncture and Examination of  
 Cerebrospinal Fluid 1854  
 Promoting Home and Community-Based  
 Care 1855
- 61 Management of Patients With  
 Neurologic Dysfunction 1857**  
 Supratentorial and Infratentorial Approaches 1874  
 Transsphenoidal Approach 1880  
 The Epilepsies 1882  
 Status Epilepticus 1888
