How to use your revision guide x

About the companion website xi

Part 1 Foundations 1

- 1 The genome 2
- 2 Homeostatic mechanisms 4
- 3 Fluid compartments 6
- 4 Cells and organelles 8
- 5 Transport systems 10
- 6 Blood 12
- 7 Inflammation and immunity 14
- 8 Tissues 16

Part 2 The nervous system 19

- 9 The brain and nerves 20
- 10 Structures of the brain 22
- 11 The spinal cord 24
- 12 The blood supply 26
- 13 The autonomic nervous system 28
- 14 Peripheral nervous system 30

Part 3 The heart and vascular system 33

- 15 The heart 34
- 16 Blood flow through the heart 36
- 17 The conducting system 38
- 18 Nerve supply to the heart 40
- 19 Structure of the blood vessels 42
- 20 Blood pressure 44
- 21 Lymphatic circulation 46

Part 4 The respiratory system 49

- 22 The respiratory tract 50
- 23 Pulmonary ventilation 52
- 24 Control of breathing 54
- 25 Gas exchange 56

Part 5 The gastrointestinal tract 59

- 26 The upper gastrointestinal tract 60
- 27 The lower gastrointestinal tract 62

- 28 The liver, gallbladder and biliary tree 64
- 29 Pancreas and spleen 66
- 30 Digestion 68

Part 6

The urinary system 71

- 31 The kidney: microscopic 72
- 32 The kidney: macroscopic 74
- 33 The ureter, bladder and urethra 76
- 34 Formation of urine 78

Part 7

The male reproductive system 81

- 35 External male genitalia 82
- 36 The prostate gland 84
- 37 Spermatogenesis 86

Part 8

The female reproductive system 89

- 38 Female internal reproductive organs 90
- 39 External female genitalia 92
- 40 The breast 94
- 41 The menstrual cycle 96

Part 9

The endocrine system 99

- 42 The endocrine system 100
- 43 The thyroid and adrenal glands 102
- 44 The pancreas and gonads 104

Part 10

The musculoskeletal system 107

- 45 Bone structure 108
- 46 Bone types 110
- 47 Joints 112
- 48 Muscles 114

Part 11

The skin 117

- 49 The skin layers 118
- 50 The skin appendages 120
- 51 Epithelialisation 122
- 52 Granulation 124

Part 12

The senses 127

- 53 Sight 128
- 54 Hearing 130
- 55 Olfaction 132
- 56 Gustation 134

Appendices

- Appendix 1** Cross-references to chapters in *Pathophysiology for Nurses at a Glance* 136
- Appendix 2** Normal physiological values 138
- Appendix 3** Prefixes and suffixes 140
- Appendix 4** Glossary 147

Further reading 150
