## Part 1 Initial patient assessment 1

- 1 The context of emergency nursing 2
- 2 Pre-hospital care 4
- 3 Triage 6
- 4 The 'ABCDE' approach 8
- 5 Track and trigger systems 10
- 6 Pain 12

## Part 2 Airway and breathing 15

- 7 Airway assessment and management 16
- 8 Assessment of breathing 18
- 9 Oxygen therapy 20
- 10 Respiratory conditions 22

## Part 3 Circulation 25

- 11 Assessment of circulation 26
- 12 Circulation interventions 28
- 13 Shock 30
- 14 12-lead electrocardiogram (ECG) 32
- 15 Cardiac arrhythmias 34
- 16 Acute coronary syndromes (ACS) 36
- 17 Heart failure 38
- 18 Advanced life support (ALS) 40

## Part 4 Disability 43

- 19 Assessment of neurological function 44
- 20 The unconscious patient 46
- 21 Stroke 48
- 22 Seizures 50
- 23 Headache 52

## Part 5 Emergency presentations and conditions 55

- 24 Abdominal pain 56
- 25 Gastrointestinal bleed 58
- 26 Genitourinary conditions 60
- 27 Acute kidney injury (AKI) 62
- 28 Diabetic emergencies 64
- 29 Obstetrics and gynaecology 66

**Part 6****Poisoning and overdose 71**

- 30 Poisoning: Assessment and management 72
- 31 Poisoning: Prescription and non-prescription drugs 74
- 32 Poisoning: Other substances 76
- 33 Alcohol misuse 78

**Part 7****Infectious diseases 81**

- 34 Infectious diseases 82
- 35 Notifiable diseases 84
- 36 Sexually transmitted infections (STI) 86

**Part 8****Vulnerable patient groups 89**

- 37 Domestic abuse 90
- 38 Sexual assault 92
- 39 The mental health patient in the emergency department (ED) 94
- 40 Risk assessment, self-harm and suicide 96
- 41 Common mental health problems 98
- 42 The patient with dementia 100
- 43 The patient with an intellectual disability 102

**Part 9****Children in the emergency department 105**

- 44 Children in the emergency department (ED) 106
- 45 Safeguarding children 108
- 46 Recognising the sick child 110
- 47 Common illnesses in children 112
- 48 Paediatric advanced life support 114

**Part 10****Minor injuries and conditions 117**

- 49 Minor injuries in children 118
- 50 Lower limb injuries 120
- 51 Upper limb injuries 122
- 52 Wounds 124
- 53 Eye conditions 126
- 54 Ear, nose and throat conditions 128

**Part 11****Major Trauma 131**

- 55 Trauma in context 132
- 56 Primary survey 134
- 57 Head and spinal injury 136
- 58 Chest trauma 138
- 59 Limb injuries 140
- 60 Abdominal and pelvic trauma 142
- 61 Massive haemorrhage 144
- 62 Burns 146
- 63 Trauma: Special circumstances 148
- 64 Trauma in children 150
- 65 Major incident 152

**Part 12****Patient transfer and end of life care 155**

- 66 Patient transfer 156
- 67 End of life care 158
