Unit 1 Contextualising the Art and Science of Nursing 1

1 Nursing: Past, Present and Future 2

Introduction 3
A Glance at the History of Nursing 4
The Beginnings of the NHS and Nursing 9
Early Nursing Research 10
Modernising Nursing Careers 12
Current Nurse Education 15
The Francis Report 16
The Quality Assurance Framework for Nursing and Midwifery 18
The NHS and Healthcare Reform 19
Conclusion 21
Key Points 22
Glossary 22
References 22

2 The Professional Nurse and Contemporary Healthcare 24

Introduction 25
Teaching and Learning in Practice 30
Theoretical Frameworks for Teaching and Learning 33
The Adult Learner 37
Revalidation and Continuing Professional Development 38
Leadership Styles and Theories 40
Evidence-based Practice 42
Change Management 44
Clinical Governance 45
Interprofessional Working 46
Working in Collaboration with Patients 46
Conclusion 47

Key Points 47
Glossary 48
References 48

3 Health Promotion 50

Introduction 51
Health Promotion 51
Interpersonal Skills for Nursing and Health Promotion 57
Motivational Interviewing and Brief Interventions 57
Models of Health Promotion 58
Frameworks for Supporting Health 59
The Contemporary Focus of Health Promotion 62
Travel Health 67
Conclusion 68
Key Points 69
Glossary 69
References 69

4 Public Health 71

Introduction 72
Setting the Scene for Public Health in the UK 72
Public Health England 76
Health Inequalities 76
Epidemiology and Public Health 80
Health Protection 81
Primary Care Nursing 82
District Nursing 82
Community Matrons 84
Health Visitor and School Health Advisor 85
Conclusion 88
Key Points 88
Glossary 88
References 89

Unit 2 The Elements of Care 91

5 Ethics, the Law and the Nurse 92

Introduction 93
Approaches to Ethics 95
Ethical Principles 97

Legal and Ethical Dilemmas in Nursing	98
Legal Perspectives	102
Accountability	106
Conclusion	109
Key Points	109
Glossary	109
References	110

6 The Nursing Process 111

Introduction	112
Defining Nursing	112
Organisational Models of Care	114
The Nursing Process	118
A Systematic Approach	119
Patient Goals	121
Nursing Goals: A Lost Art?	121
Writing the Care Plan	122
How Does 'Intentional Rounding' Fit In?	124
Compassion	125
Conclusion	126
Key Points	126
Glossary	126
References	127

7 Models of Nursing 129

Introduction	130
Nursing Theory	130
History and Principles	132
A Framework for Children's Nursing	135
The Tidal Model in Mental Health Nursing	136
The Art and Science of Nursing	138
Patient-centred Care and Safety	140
Conclusion	142
Key Points	143
Glossary	143
References	143

Unit 3 The Principles of Care 147

8 The Principles of Safeguarding and Dignity 148

Introduction	149
What Is Safeguarding?	149
Principles of Safeguarding	149
What Is Abuse or Harm?	153
Safeguarding Is Everybody's Business	155
Policy Framework for Safeguarding Adults	155
Responding to Disclosures	156
Key Stages of the Adult Safeguarding Process	157
Preventing the Abuse of Adults at Risk	160

What Is Dignity?	162
What Is Respect?	163
Thinking About and Understanding Dignity	163
Types of Dignity	165
Essence of Care	2010 168
Influencing Dignity in Care Practice	168
Conclusion	168
Key Points	169
Glossary	169
References	169

9 The Principles of Older People's Care 171

Introduction	172
Attitudes and Stereotyping	172
Effective Communication	173
Patient-centred Care	175
The Older Person's Nutritional Needs	178
Pressure Ulcer Prevention	182
Falls Prevention	183
After a Fall	185
Discharge Planning	186
Key Points	189
Glossary	189
References	189

10 The Principles of Caring for People with Learning Disabilities and/or Autism 193

Introduction	194
Definitions of Learning Disabilities	195
Autistic Spectrum Conditions Defined	196
Prevalence and Causes of Learning Disabilities	197
Classification of Learning Disability	197
Inequalities in Health Care	198
Attitudes Towards People with Learning Disabilities	199
Supporting Access to Services	199
Communication	203
Legal Aspects	205
Safeguarding	206
Conclusion	208
Key Points	208
Glossary	208
References	208

11 Principles of Caring for Children and Families 210

Introduction	211
The Key Stages in Relation to the Development of Infants, Children and Young People	211
A Range of Communication Strategies	214
Some Common Physical and Mental Health Problems	218

Basic/Fundamental Care Needs	223
The Importance of Acting to Protect Infants, Children and Young People	227
Identifying Signs of Deterioration in General Health	229
Best Practice Relating to End of Life Care	232
Key Points	233
Glossary	233
References	234

12 The Principles of Caring for People with Mental Health Problems 236

Introduction	237
Policy Content	237
What Is Mental Disorder?	238
Settings for Mental Health Care	240
Recovery	241
Holism	241
Caring for Carers	242
Comprehensive Assessment in Mental Health	242
The Physical Health of People with Mental Health Problems	243
Risk Assessment and Management	244
Legal Context	246
Therapeutic Nursing Care	247
Conclusion	249
Key Points	249
Glossary	250
References	250

13 The Principles of Maternity Care 254

Introduction	255
The Role of the Midwife in Maternity Care	255
Overview of the Physiology of Pregnancy	255
Overview of Antenatal Care	256
Overview of Intranatal Care	260
Midwifery Care in Normal Labour	262
Unexpected and Rapid Deliveries	263
Initial Care of the Mother and Baby after Birth	263
Overview of Postnatal Care: Mother	264
Health and Advice in the Postnatal Period	265
Care of the Neonate after Birth	266
Infant Feeding	267
Conclusion	268
Key Points	268
Glossary	268
References	269

14 The Principles of Surgical Care 270

Introduction	271
The Classification of Surgery and Risk	271
The Phases of Surgery	272

Complications of Surgery	280
Further Care of the Surgical Patient	282
Discharge	284
Day-case Surgery	285
Conclusion	285
Key Points	285
Glossary	286
References	286

15 The Principles of Cancer Care 288

Introduction	289
Pathophysiology	290
Signs and Symptoms	291
Investigations and Diagnosis	292
Treatment of Cancer	293
Other Problems Resulting from All Cancer Therapies	303
Survivorship	303
End of Life Care	305
Conclusion	305
Key Points	305
Glossary	305
References	306

16 The Principles of Infection Control 307

Introduction	308
Development of Infection Control Practices	308
Preventing the Spread of Infection	309
Common Healthcare-associated Infections	314
Antimicrobial Resistance	319
Care and Treatment for People with Infectious Diseases	319
Diagnostic Tests and Treatment	325
Technology and Infection Control	328
Conclusion	329
Key Points	329
Glossary	329
References	330

17 The Principles of Nutrition 332

Introduction	333
The Nutrients	333
A Healthy Diet	335
Physiology of the Alimentary System	335
Undernourishment and Malnutrition	338
Nutritional Support	340
Obesity	342
Diabetes and Nutrition	343
Nutrition and Mental Illness	344
Hydration	345
Nutrition and Wound Healing	345
Nutrition for the Person Who Is Dying	346
Hospital Nutrition Services	347
Conclusion	348

Key Points 348
 Glossary 348
 References 348

18 The Principles of Skin Integrity 350

Introduction 351
 Anatomy and Physiology of the Skin 351
 Function of the Skin 354
 Wound Healing (Figure 18.6) 355
 Psycho-Socioeconomic Aspects of Wound Care 356
 The Quality Agenda and Wound Management 357
 Wound Care and Management 359
 Nursing Management 370
 Multiple Pathology and Wound Care 372
 Conclusion 373
 Key Points 373
 Glossary 373
 References 374

19 The Principles of Medicine Administration and Pharmacology 376

Introduction 377
 Pharmacology 377
 Person Group Directions 384
 Changing Demography of the UK 386
 Generic and Brand Names 386
 Legislation and Policies Governing Drug Administration 386
 Cold Chain 388
 Preparation of Drugs 388
 Medical Abbreviations 392
 Compliance, Concordance and Adherence 393
 Some Common Drugs Used in Practice and Their Action 393
 Drug Calculations 400
 Conclusion 401
 Key Points 402
 Glossary 402
 References 402

20 Care at the End of Life 404

Introduction 405
 Where Do Our Ideas about Death and Dying Come From? 405
 The Death of Personhood 406
 Care at the End of Life 407
 Advance Care Planning 412
 Care in the Last few Days of Life 415
 Communication 417
 Breaking Bad News 421
 Culture and Ethnicity 422

Grief, Loss and Bereavement 424
 Who Cares for the Carers? 425
 Conclusion 426
 Key Points 427
 Glossary 427
 References 427

21 The Principles of Supporting Families and Carers in Practice 430

Introduction 431
 Carers 431
 Families 435
 Opportunities for Family and Carer Involvement 438
 Adaptability and Coping 441
 The Impact of Caregiving 443
 Interventions to Support Families and Carers 447
 Conclusion 448
 Key Points 449
 Glossary 449
 References 449

Unit 4 The Scientific Nature of Disease 453

22 The Cell 454

Introduction 455
 The Chemical Level 456
 The Genetic Level 459
 The Cellular Level 474
 The Tissue Level 476
 Conclusion 478
 Key Points 478
 Glossary 478
 References 479

23 Immunity, Inflammation and Infection 480

Introduction 481
 Inflammation 481
 An Introduction to the Classification of Microbes/
 Microorganisms 483
 The Lymphatic System and Immunity 484
 The Cells of Immunity 491
 Chemical Proteins Involved in
 Immunity 494
 Immunity in Action 496
 Disorders of the Immune System 499
 Immunodeficiency 502
 Conclusion 503
 Key Points 503
 Glossary 503
 References 503

24 Pain Management 504

- Introduction 505
- The Physiology of Pain 505
- The Classification of Pain 508
- Pain Theory 512
- Pain Assessment 513
- Pain Management 514
- Nursing Management of Acute Pain 519
- Nursing Management of Chronic Pain 522
- Conclusion 524
- Key Points 524
- Glossary 525
- References 526

25 Fluid and Electrolyte Imbalance, and Shock 528

- Introduction 529
- Fluid Balance 529
- Electrolyte Imbalance 537
- Shock 545
- Conclusion 549
- Key Points 549
- Glossary 549
- References 550

Unit 5 The Art and Science of Nursing Care 551

26 The Person with a Cardiovascular Disorder 552

- Introduction 553
- Anatomy and Physiology of the Heart 553
- Anatomy and Physiology of the Blood Vessels 558
- Assessing the Cardiovascular System 561
- Disorders of the Cardiovascular System 563
- Conclusion 575
- Key Points 576
- Glossary 576
- References 576

27 The Person with a Haematological Disorder 578

- Introduction 579
- Composition of Blood 579
- Red Blood Cells 579
- Conditions Associated with the Red Cells 581

- White Blood Cells and Lymphoid Tissue Disorders 590
- The Lymphatic System 591
- Conditions Associated with the White Blood Cells 591
- Platelet and Haemostasis Disorders 599
- Conclusion 602
- Key Points 603
- Glossary 603
- References 603

28 The Person with a Respiratory Disorder 605

- Introduction 606
- Anatomy and Physiology 606
- Respiratory Disease 617
- Respiratory Failure 617
- Respiratory Tract Infection 621
- Obstructive Lung Disorders 624
- Restrictive Lung Disorders 628
- Lung Cancer 629
- Pleural Disorders 630
- Interstitial Lung Disease (Diffuse Parenchymal Lung Disease) 631
- Conclusion 631
- Key Points 631
- Glossary 631
- References 633

29 The Person with a Gastrointestinal Disorder 635

- Introduction 636
- Anatomy and Physiology 636
- Peptic Ulcer 644
- Carcinoma of the Stomach 646
- Hepatitis 648
- Inflammatory Bowel Disease 651
- Stomas 653
- Gallbladder Disorders 657
- Conclusion 660
- Key Points 660
- Glossary 660
- References 660

30 The Person with a Urinary Disorder 662

- Introduction 663
- Anatomy and Physiology 663
- Urinary Tract Infection 669
- Renal Calculi 670
- Bladder Cancer 672
- Renal Tumour 675

Renal Failure 677
 Acute Kidney Injury 677
 Chronic Kidney Disease 680
 Conclusion 683
 Key Points 684
 Glossary 684
 References 684

31 The Woman with a Reproductive Disorder 686

Introduction 687
 Anatomy and Physiology 687
 Assessing the System 692
 Abnormal Menstrual Bleeding 695
 The Menopause 697
 Disorders of the Female Reproductive System 699
 Gynaecological Oncology 704
 Female Genital Mutilation 711
 Breast Disease 711
 Breast Surgery 713
 Conclusion 715
 Key Points 715
 Glossary 715
 References 715

32 The Man with a Reproductive Disorder 717

Introduction 718
 Anatomy and Physiology 718
 Assessing the System 723
 Testicular Disorders 728
 Prostate Disease 731
 Erectile Dysfunction 739
 Circumcision 742
 Conclusion 743
 Key Points 743
 Glossary 744
 References 744

33 The Person with a Sexually Transmitted Infection 746

Introduction 747
 Assessing the System 748
 Features of STIs 755
 Preventing STIs 756
 Partner notification 756
 Genital Warts 756
 Gonorrhoea 758
 Syphilis 762
 Conclusion 765
 Key Points 765
 Glossary 765
 References 766

34 The Person with an Endocrine Disorder 768

Introduction 769
 Anatomy and Physiology of the Endocrine System 770
 Anatomy and Physiology of the Individual Endocrine Glands 772
 Assessing the Endocrine System 780
 Hypopituitarism (Pituitary Insufficiency) 781
 Disorders of the Thyroid Gland 783
 Disorders of the Parathyroid Glands 787
 Disorders of the Adrenal Glands 788
 Diabetes Mellitus 791
 Conclusion 794
 Key Points 794
 Glossary 794
 References 795

35 The Person with a Neurological Disorder 797

Introduction 798
 Anatomy and Physiology 798
 Nursing Assessment of the Neurological System 811
 The Unconscious Patient 819
 The Patient with Raised Intracranial Pressure 822
 Traumatic Brain Injury (Head Injury) 823
 Stroke 827
 Neurological Oncology 830
 Infections of the CNS 832
 Epilepsy 833
 Headaches 836
 Multiple Sclerosis 838
 Parkinson's Disease 841
 Alzheimer's Disease and Related Disorders 843
 Peripheral Neuropathy 845
 Conclusion 846
 Key Points 846
 Glossary 847
 References 847

36 The Person with an Ear or Eye Disorder 850

Introduction 851
 Anatomy and Physiology of the Ear 851
 Assessing the Person with an Ear Problem 856
 Common Conditions of the Ear 858
 Anatomy and Physiology of the Eye 863
 Assessing Vision 867
 Common Conditions of the Eye 870
 Cataract Surgery 873
 Conclusion 876
 Key Points 876
 Glossary 876
 References 877

37 The Person with a Musculoskeletal Disorder 879

Introduction	880
Anatomy and Physiology	880
Musculoskeletal Conditions	888
Assessing the Musculoskeletal System	891
Arthritis	892
Fractured Neck of Femur	897
Caring for People with Plaster Casts	903
Conclusion	904
Key Points	905
Glossary	905
References	907

38 The Person with a Skin Disorder 909

Introduction	910
Anatomy and Physiology	910
Assessment	910

Skin Infections: Viral, Bacterial and Fungal Infestations	915
Acne	919
Rosacea	921
Psoriasis	922
Eczema	923
Skin Tumours	923
Vascular Disorders (Including Naevi)	925
Disorders of the Hair and Nails	926
Connective Tissue Disorders	928
Conclusion	929
Key Points	929
Glossary	929
References	930

Appendix A Reference Values in Venous Serum (Adults)	931
Appendix B List of Units	934
Index	935
