KLEIN / MOSELEY

ELSEVIER

<http://evolve.elsevier.com>

PART 1 FUNDAMENTAL CONCEPTS

1 Overview of Critical Care Nursing, 2

Mary Lou Sole, PhD, RN, CCNS, CNL, FAAN, FCCM

- Definition of Critical Care Nursing, 2
- Evolution of Critical Care, 2
- Professional Organizations, 4
 - American Association of Critical-Care Nurses, 4*
 - Society of Critical Care Medicine, 4*
 - Other Professional Organizations, 4*
- Certification, 4
- Standards, 5
- Critical Care Nurse Characteristics, 5
- Quality and Safety Emphasis, 5
- Evidence-Based Practice, 7
- Healthy Work Environment, 7
 - Communication, 8*
 - Collaboration, 9*
- Other Trends and Issues, 10

2 Patient and Family Response to the Critical Care Experience, 14

Sandra J. Knapp, PhD, RN, CCRN, CNL
Mary Lou Sole, PhD, RN, CCNS, CNL, FAAN, FCCM

- Introduction, 14
- The Critical Care Environment, 14
- The Critically Ill Patient, 16
 - Discharge from Critical Care and Quality of Life after Critical Care, 17*
 - Geriatric Concerns, 17*
- Family Members of the Critically Ill Patient, 17
 - Family Assessment, 17*
 - Family Needs, 18*
 - Communication, 20*
 - Visitation, 21*
 - Family Presence During Procedures and Resuscitation, 22*
 - Practice Alerts, 22*

3 Ethical and Legal Issues in Critical Care Nursing, 26

Jayne M. Willis, MSN, RN, NEA-BC
Kathy Black, MSN, RN, NE-BC

- Introduction, 26
- Ethical Obligations and Nurse Advocacy, 26

Ethical Decision Making, 27

Ethical Principles, 27

Creating an Ethical Environment, 29

Increasing Nurses' Involvement in Ethical Decision Making, 29

Selected Ethical Topics in Critical Care, 30

Informed Consent, 30

Decisions Regarding Life-Sustaining Treatment, 30

End-of-Life Issues, 33

Organ and Tissue Transplantation, 34

4 End-of-Life Care in the Critical Care Unit, 37

Douglas Houghton MSN, ARNP, ACNPC, CCRN, FAANP

Introduction, 37

Effects on Nurses and the Healthcare Team, 38

Dimensions of End-of-Life Care, 38

Palliative Care, 38

Communication and Conflict Resolution, 38

Withholding, Limiting, or Withdrawing Therapy, 40

Emotional and Psychological Care of the Patient and Family, 42

Caregiver Organizational Support, 42

Culturally Competent End-of-Life Care, 43

PART 2 TOOLS FOR THE CRITICAL CARE NURSE

5 Comfort and Sedation, 48

Mamoona Arif Rahu, PhD, RN, CCRN

Introduction, 48

Definitions of Pain and Anxiety, 48

Predisposing Factors to Pain and Anxiety, 49

Physiology of Pain and Anxiety, 49

Pain, 49

Anxiety, 51

Positive Effects of Pain and Anxiety, 51

Negative Effects of Pain and Anxiety, 52

Physical Effects, 52

Psychological Effects, 52

Assessment, 52

Pain Measurement Tools, 53

Pain Measurement Tools for Nonverbal Patients, 54

- Anxiety and Sedation Measurement Tools*, 56
- Continuous Monitoring of Sedation*, 57
- Pain and Anxiety Assessment Challenges*, 58
- Management of Pain and Anxiety, 65
 - Nonpharmacological Management*, 65
 - Complementary and Alternative Therapy*, 66
 - Pharmacological Management*, 66
- Management Challenges, 70
 - Invasive Procedures*, 70
 - Substance Abuse*, 70
 - Restraining Devices*, 71
 - Effects of Aging*, 71
- 6 Nutritional Support, 80**
 - Miranda Kelly, DNP, RN, ACNP-BC
 - Introduction, 80
 - Gastrointestinal Tract, 80
 - Utilization of Nutrients, 80
 - Assessment of Nutritional Status, 81
 - Overview of Nutritional Support, 83
 - Enteral Nutrition*, 83
 - Parenteral Nutrition*, 83
 - Nutritional Additives*, 84
 - Nutritional Therapy Goal, 85
 - Practice Guidelines, 87
 - Enteral Nutrition*, 87
 - Parenteral Nutrition*, 89
 - Drug-Nutrient Interactions*, 89
 - Monitoring Nutritional Status and Complications of Nutritional Support, 89
 - Monitoring and Evaluating the Nutrition Care Plan*, 90
- 7 Dysrhythmia Interpretation and Management, 94**
 - Julie Marcum, MS, APRN-BC, CCRN-CMC
 - Introduction, 94
 - Overview of Electrocardiogram Monitoring, 94
 - Cardiac Physiology Review, 95
 - Cardiac Electrophysiology*, 96
 - Autonomic Nervous System*, 97
 - The 12-Lead Electrocardiogram, 98
 - Standard Limb Leads*, 98
 - Augmented Limb Leads*, 101
 - Precordial Leads*, 101
 - Grouping of Leads*, 102
 - Continuous Cardiac Monitoring*, 102
 - Skin Preparation and Lead Placement*, 102
 - Basics of Dysrhythmia Analysis, 104
 - Measurements*, 104
 - Waveforms and Intervals*, 105
 - Causes of Dysrhythmias, 107
 - Dysrhythmia Analysis, 108
 - Rate*, 108
 - Regularity*, 110
 - Measurement of PR, QRS, QT/QTc Intervals*, 110
 - Shape or Morphology of Waveforms*, 111
 - Identification of Underlying Rhythm and Any Noted Dysrhythmia*, 111
 - Patient Tolerance of the Rhythm and Clinical Implication of the Rhythm*, 111
 - Basic Dysrhythmias, 111
 - Normal Sinus Rhythm*, 111
 - Dysrhythmias of the Sinoatrial Node*, 112
 - Dysrhythmias of the Atria*, 114
 - Dysrhythmias of the Atrioventricular Node*, 120
 - Dysrhythmias of the Ventricle*, 123
 - Atrioventricular Blocks*, 129
 - Cardiac Pacemakers, 132
 - Temporary Pacemakers*, 132
 - Permanent Pacemakers*, 133
 - Other Devices with Pacemaker Capabilities, 136
- 8 Hemodynamic Monitoring, 140**
 - Maximino Martell, MSN, RN, CCRN, CCNS, CNS-BC
 - David A. Allen, MSN, RN, CCRN, CCNS, CNS-BC
 - Introduction, 140
 - Review of Anatomy and Physiology, 140
 - Cardiovascular System Structure*, 140
 - Principles of Physics*, 143
 - Components of Cardiac Output*, 144
 - Regulation of Cardiovascular Function*, 145
 - Effects of Aging*, 145
 - Hemodynamic Monitoring Modalities, 145
 - Noninvasive Monitoring*, 146
 - Invasive Hemodynamic Monitoring*, 149
 - Arterial Pressure Monitoring*, 154
 - Right Atrial Pressure/Central Venous Pressure Monitoring*, 155
 - Pulmonary Artery Pressure Monitoring*, 157
 - Cardiac Output Monitoring*, 161
 - Oxygen Delivery and Consumption*, 163
 - Additional Techniques and Technologies, 164
 - Esophageal Doppler Monitoring*, 164
 - Pulse Contour Cardiac Output Monitoring*, 165

- Assessing Effect of Respiratory Variation on Hemodynamic Parameters*, 166
- 9 Ventilatory Assistance, 170**
Lynelle N. B. Pierce, MSN, RN, CCRN
 Introduction, 170
 Review of Respiratory Anatomy and Physiology, 170
 Upper Airway, 170
 Lower Airway, 170
 Lungs, 172
 Physiology of Breathing, 172
 Gas Exchange, 172
 Regulation of Breathing, 173
 Respiratory Mechanics, 173
 Lung Volumes and Capacities, 174
 Respiratory Assessment, 174
 Health History, 174
 Physical Examination, 176
 Arterial Blood Gas Interpretation, 178
 Noninvasive Assessment of Gas Exchange, 182
 Oxygen Administration, 183
 Humidification, 183
 Oxygen Delivery Devices, 184
 Airway Management, 185
 Positioning, 185
 Oral Airways, 186
 Nasopharyngeal Airways, 186
 Endotracheal Intubation, 186
 Tracheostomy, 190
 Endotracheal Suctioning, 193
 Mechanical Ventilation, 194
 Indications, 194
 Positive-Pressure Ventilation, 194
 Ventilator Settings, 194
 Patient Data, 196
 Modes of Mechanical Ventilation, 197
 Noninvasive Positive-Pressure Ventilation, 201
 High Frequency Oscillatory Ventilation, 202
 Advanced Methods and Modes of Mechanical Ventilation, 203
 Respiratory Monitoring During Mechanical Ventilation, 203
 Complications of Mechanical Ventilation, 204
 Nursing Care, 207
 Communication, 212
 Maintaining Comfort and Reducing Distress, 212
 Medications, 212
 Nonpharmacological Interventions, 213
 Weaning Patients From Mechanical Ventilation, 213
 Approach to Weaning Using Best Evidence, 213
 Assessment for Readiness to Wean (Wean Screen), 213
 Weaning Process (Weaning Trial), 215
 Extubation, 217
- 10 Rapid Response Teams and Code Management, 220**
Deborah G. Klein, MSN, RN, APRN-BC, CCRN, FAHA
 Introduction, 220
 Rapid Response Teams, 220
 Roles of Caregivers in Code Management, 221
 Code Team, 221
 Equipment Used in Codes, 223
 Resuscitation Efforts, 224
 Basic Life Support, 224
 Advanced Cardiac Life Support, 226
 Recognition and Treatment of Dysrhythmias, 228
 Electrical Therapy, 230
 Pharmacological Intervention During a Code, 235
 Oxygen, 238
 Epinephrine (Adrenalin), 238
 Vasopressin, 238
 Atropine, 238
 Amiodarone (Cordarone), 238
 Lidocaine (Xylocaine), 239
 Adenosine (Adenocard), 239
 Magnesium, 239
 Sodium Bicarbonate, 240
 Dopamine (Intropin), 240
 Documentation of Code Events, 240
 Care of the Patient After Resuscitation, 242
 Therapeutic Hypothermia After Cardiac Arrest, 244

PART 3 NURSING CARE DURING CRITICAL ILLNESS

- 11 Shock, Sepsis, and Multiple Organ Dysfunction Syndrome, 250**
Kathleen Hill, MSN, RN, CCNS-CSC
 Introduction, 250
 Review of Anatomy and Physiology, 250
 Pathophysiology, 251

- Stages of Shock*, 252
 - Systemic Inflammatory Response Syndrome*, 256
 - Effects of Aging*, 257
 - Assessment, 257
 - Clinical Presentation*, 257
 - Laboratory Studies*, 260
 - Management, 261
 - Maintenance of Circulating Blood Volume and Adequate Hemoglobin Level*, 261
 - Maintenance of Arterial Oxygen Saturation and Ventilation*, 264
 - Pharmacological Support*, 264
 - Maintenance of Body Temperature*, 267
 - Nutritional Support*, 268
 - Maintenance of Skin Integrity*, 268
 - Psychological Support*, 268
 - Nursing Diagnosis, 268
 - Specific Classifications of Shock, 270
 - Hypovolemic Shock*, 270
 - Cardiogenic Shock*, 272
 - Obstructive Shock*, 275
 - Distributive Shock*, 276
 - Multiple Organ Dysfunction Syndrome, 283
 - Patient Outcomes, 285
- 12 **Cardiovascular Alterations**, 289
 - Colleen Walsh-Irwin, MS, RN, CCRN, ANP
 - Introduction, 289
 - Normal Structure and Function of the Heart, 289
 - Autonomic Control*, 292
 - Coronary Circulation*, 292
 - Other Cardiac Functions*, 293
 - Heart Sounds*, 294
 - Heart Murmur*, 295
 - Coronary Artery Disease, 295
 - Pathophysiology*, 295
 - Assessment*, 298
 - Nursing Diagnoses*, 302
 - Interventions*, 302
 - Patient Outcomes*, 305
 - Angina, 305
 - Pathophysiology*, 305
 - Types of Angina*, 305
 - Assessment*, 305
 - Nursing Diagnoses*, 306
 - Interventions*, 306
 - Outcomes*, 310
 - Acute Coronary Syndrome, 310
 - Pathophysiology*, 310
 - Assessment*, 311
 - Diagnosis*, 311
 - Complications*, 315
 - Medical Interventions*, 315
 - Outcomes*, 317
 - Interventional Cardiology, 317
 - Percutaneous Transluminal Coronary Angioplasty*, 318
 - Intracoronary Stent*, 319
 - Surgical Revascularization*, 319
 - Mechanical Therapies, 322
 - Transmyocardial Revascularization*, 322
 - Enhanced External Counterpulsation*, 322
 - Cardiac Dysrhythmias, 322
 - Radiofrequency Catheter Ablation*, 322
 - Pacemakers*, 322
 - Defibrillators*, 324
 - Heart Failure, 325
 - Pathophysiology*, 325
 - Assessment*, 327
 - Diagnosis*, 328
 - Interventions*, 332
 - Complications*, 336
 - Pericarditis, 337
 - Endocarditis, 337
 - Vascular Alterations, 337
 - Aortic Aneurysms*, 338
 - Nursing Assessment*, 340
 - Treatment*, 340
- 13 **Nervous System Alterations**, 345
 - Christina Stewart-Amidei, PhD, RN, CNRN, CCRN, FAAN
 - Deborah G. Klein, MSN, RN, APRN-BC, CCRN, FAHA
 - Introduction, 345
 - Anatomy and Physiology of the Nervous System, 345
 - Cells of the Nervous System*, 345
 - Cerebral Circulation*, 347
 - Cerebral Metabolism*, 347
 - Blood-Brain Barrier System*, 347
 - Ventricular System and Cerebrospinal Fluid*, 349
 - Functional and Structural Divisions of the Central Nervous System, 349
 - Meninges*, 349
 - Brain (Encephalon)*, 350
 - Cerebrum*, 350
 - Spinal Cord*, 352
 - Peripheral Nervous System*, 353
 - Effects of Aging*, 355
 - Assessment*, 355

- Increased Intracranial Pressure, 358
 - Pathophysiology*, 358
 - Causes of Increased Intracranial Pressure*, 359
 - Assessment*, 361
 - Diagnostic Testing*, 364
 - Nursing Diagnoses*, 364
 - Management*, 368
- Traumatic Brain Injury, 372
 - Pathophysiology*, 373
 - Assessment*, 376
 - Management*, 376
- Acute Stroke, 377
 - Pathophysiology*, 377
 - Assessment*, 379
 - Diagnostic Tests*, 381
 - Management*, 382
 - Postoperative Neurosurgical Care*, 385
- Seizures and Status Epilepticus, 385
 - Pathophysiology of Status Epilepticus*, 385
 - Assessment*, 386
 - Diagnostic Tests*, 386
 - Management*, 386
- Central Nervous System Infections, 387
 - Bacterial Meningitis*, 387
- Spinal Cord Injury, 389
 - Pathophysiology*, 389
 - Assessment*, 389
 - Diagnostic Studies*, 392
 - Management*, 392
- 14 **Acute Respiratory Failure, 400**
 - Maureen A. Seckel, MSN, RN, APN, ACNS-BC, CCNS, CCRN*
 - Introduction, 400**
 - Acute Respiratory Failure, 400**
 - Definition*, 400
 - Pathophysiology*, 401
 - Assessment*, 403
 - Effects of Aging*, 403
 - Interventions*, 404
 - Nursing Diagnoses*, 404
 - Respiratory Failure in Acute Respiratory Distress Syndrome, 407**
 - Definition*, 407
 - Etiology*, 407
 - Pathophysiology*, 408
 - Assessment*, 410
 - Interventions*, 410
 - Acute Respiratory Failure in Chronic Obstructive Pulmonary Disease, 413**
 - Pathophysiology*, 413
 - Assessment*, 413
 - Interventions*, 414
 - Acute Respiratory Failure in Asthma, 416**
 - Pathophysiology*, 416
 - Assessment*, 416
 - Interventions*, 417
 - Acute Respiratory Failure Resulting From Pneumonia, 417**
 - Definition and Etiology*, 417
 - Pathophysiology*, 419
 - Assessment*, 419
 - Ventilator-Associated Pneumonia, 420**
 - Pathophysiology*, 420
 - Assessment*, 420
 - Interventions*, 422
 - Acute Respiratory Failure Resulting From Pulmonary Embolism, 423**
 - Definition/Classification*, 423
 - Etiology*, 423
 - Pathophysiology*, 423
 - Assessment*, 424
 - Diagnosis*, 424
 - Prevention*, 424
 - Treatment*, 425
 - Acute Respiratory Failure in Adult Patients with Cystic Fibrosis, 425**
 - Definition*, 425
 - Etiology*, 427
 - Interventions*, 427
- 15 **Acute Kidney Injury, 432**
 - Kathleen Kerber, MSN, RN, ACNS-BC, CCRN*
 - Introduction, 432**
 - Review of Anatomy and Physiology, 432**
 - Regulation of Fluid and Electrolytes and Excretion of Waste Products*, 433
 - Regulation of Acid-Base Balance*, 434
 - Regulation of Blood Pressure*, 434
 - Effects of Aging*, 434
 - Pathophysiology of Acute Kidney Injury, 435**
 - Definition*, 435
 - Etiology*, 436
 - Course of Acute Kidney Injury*, 439
 - Assessment, 440**
 - Patient History*, 440
 - Vital Signs*, 440
 - Physical Assessment*, 440
 - Evaluation of Laboratory Values*, 440
 - Diagnostic Procedures, 444**
 - Nursing Diagnoses, 444**
 - Nursing Interventions, 446**
 - Medical Management of Acute Kidney Injury, 447**

- Prerenal Causes*, 447
Postrenal Causes, 447
Intrarenal Causes: Acute Tubular Necrosis, 447
Outcomes, 457
- 16 Hematological and Immune Disorders**, 460
Patricia B. Wolff, MSN, RN, ACNS-BC, AOCNS
Jill T. Dickerson, MSN, RN, CNS-MS, FNP-BC, CWON
Marthe J. Moseley, PhD, RN, CCNS
Introduction, 460
Review of Anatomy and Physiology, 460
Hematopoiesis, 460
Effects of Aging, 460
Components and Characteristics of Blood, 460
Hematopoietic Cells, 464
Immune Anatomy, 467
Immune Physiology, 467
Hemostasis, 469
Nursing Assessment of Hematological and Immunological Function, 471
Past Medical History, 471
Evaluation of Patient Complaints and Physical Examination, 471
Diagnostic Tests, 471
Selected Erythrocyte Disorders, 474
Anemia, 474
White Blood Cell and Immune Disorders, 480
The Immunocompromised Patient, 481
Neutropenia, 486
Malignant White Blood Cell Disorders: Leukemia, Lymphoma, and Multiple Myeloma, 487
Assessment and Clinical Manifestations, 488
- Selected Immunological Disorders**, 490
Primary Immunodeficiency, 490
Secondary Immunodeficiency, 490
- Bleeding Disorders**, 492
The Bleeding Patient, 492
Thrombocytopenia, 496
Disseminated Intravascular Coagulation, 497
- 17 Gastrointestinal Alterations**, 502
Katherine F. Alford, MSN, RN, CCRN, PCCN
Introduction, 502
Review of Anatomy and Physiology, 502
Gastrointestinal Tract, 502
Accessory Organs, 505
Neural Innervation of the Gastrointestinal System, 507
Hormonal Control of the Gastrointestinal System, 507
Blood Supply of the Gastrointestinal System, 509
Geriatric Considerations, 509
General Assessment of the Gastrointestinal System, 510
History, 511
Inspection, 511
Auscultation, 511
Percussion, 511
Palpation, 511
Acute Gastrointestinal Bleeding, 511
Pathophysiology, 511
Assessment, 514
Nursing Diagnoses, 516
Collaborative Management: Nursing and Medical Considerations, 516
Treatment of Variceal Bleeding, 520
Patient Outcomes, 523
Acute Pancreatitis, 523
Pathophysiology, 523
Assessment, 523
Nursing Diagnoses, 526
Medical and Nursing Interventions, 528
Patient Outcomes, 530
Hepatic Failure, 530
Pathophysiology, 530
Assessment of Hepatic Failure, 533
Nursing Diagnoses, 534
Medical and Nursing Interventions, 537
Patient Outcomes, 539
Bariatric Surgery, 540
- 18 Endocrine Alterations**, 543
Jacqueline LaManna, MSN, ARNP-BC, ADM, CDE
Christina Stewart-Amidei, PhD, RN, CNRN, CCRN, FAAN
Introduction, 543
Changes in the Endocrine System in Critical Illness, 543
Disease States of the Endocrine System, 543
Hyperglycemia in the Critically Ill Patient, 545
Achieving Optimal Glycemic Control, 546
Hypoglycemia as a Preventable Adverse Effect of Glucose Management, 546
Hyperglycemia in the Critically Ill, 547
Pancreatic Endocrine Emergencies, 550
Review of Physiology, 550
Effects of Aging, 551
Hyperglycemic Crises, 552
Hypoglycemia, 562

- Acute and Relative Adrenal Insufficiency, 565
Etiology, 565
Review of Physiology, 565
Pathophysiology, 567
Assessment, 567
Nursing Diagnoses, 569
Nursing and Medical Interventions, 569
- Thyroid Gland in Critical Care, 570
Review of Physiology, 570
Effects of Aging, 571
Thyroid Function in the Critically Ill, 571
- Thyroid Crises, 572
Etiology, 572
Thyrotoxic Crisis (Thyroid Storm), 573
Myxedema Coma, 577
- Antidiuretic Hormone Disorders, 579
Review of Physiology, 579
Diabetes Insipidus, 580
Syndrome of Inappropriate Antidiuretic Hormone, 583
Cerebral Salt Wasting, 585
- 19 Trauma and Surgical Management, 588
Mary Beth Flynn Makic, PhD, RN, CNS, CCNS, CCRN
 Introduction, 588
 Trauma Demographics, 588
 Systems Approach to Trauma Care, 589
Trauma System, 589
 Mechanisms of Injury, 592
Blunt Trauma, 593
Penetrating Trauma, 594
Blast Injuries, 594
 Emergency Care Phase, 594
Initial Patient Assessment, 594
Primary and Secondary Survey, 594
 Resuscitation Phase, 596
Establishing Airway Patency, 597
Maintaining Effective Breathing, 597
Maintaining Circulation, 598
Diagnostic Testing, 598
Adequacy of Resuscitation, 599
Fluid Resuscitation, 599
Assessment of Neurological Disabilities, 601
Exposure and Environmental Considerations, 602
 Assessment and Management of Specific Organ Injuries, 602
Thoracic Injuries, 602
Abdominal Injuries, 604
Musculoskeletal Injuries, 605
 Critical Care Phase, 607
Damage-Control Surgery, 607
Postoperative Management, 608
 Special Considerations and Populations, 610
Alcohol and Drug Abuse, 610
Family and Patient Coping, 611
 Rehabilitation, 611
- 20 Burns, 614
Karla S. Ahrns Klas, BSN, RN, CCRP
 Introduction, 614
 Review of Anatomy and Physiology of the Skin, 614
Effects of Aging, 615
 Mechanisms of Injury, 615
Thermal Injury, 615
Chemical Injury, 616
Electrical Injury, 616
Inhalation Injury, 617
 Burn Classification and Severity, 618
Depth of Injury, 618
Extent of Injury, 620
 Physiological Responses to Burn Injury, 622
Cardiovascular Response, 622
Host Defense Mechanisms, 622
Pulmonary Response, 627
Renal Response, 627
Gastrointestinal Response, 627
Metabolic Response, 627
 Phases of Burn Care Assessment and Collaborative Interventions, 627
Resuscitative Phase: Prehospital, 632
Resuscitative Phase: Emergency Department and Critical Care Burn Center, 634
Acute Care Phase: Critical Care Burn Center, 640
 Special Considerations and Areas of Concern, 641
Burns of the Face, 641
Burns of the Ears, 641
Burns of the Eyes, 641
Burns of the Hands, Feet, or Major Joints, 641
Burns of the Genitalia and Perineum, 641
Electrical Injury, 642
Chemical Injury, 642
Abuse and Neglect, 642
 Pain Control, 642
 Infection Control, 643
 Wound Management, 644
Wound Care, 644
Topical Agents and Dressings, 644
Surgical Excision and Grafting, 647

- Nutritional Considerations, 650
- Psychosocial Considerations, 650
- Geriatric Concerns, 651
- Nonburn Injury, 652
 - Severe Exfoliative Disorders*, 652
 - Necrotizing Soft Tissue Infections*, 653
- Discharge Planning, 653
- Burn Prevention, 653
- 21 Solid Organ Transplantation, 658**
 - Linda Ohler, MSN, RN, CCTC, FAAN*
 - Tracy Evans Walker, MSN, RN, ANP-BC, CCTC*
 - Deborah G. Klein, MSN, RN, APRN-BC, CCRN, FAHA*
 - Introduction, 658
 - Organ Donation*, 658
 - Donor Management*, 661
 - Selection of Candidates for Transplantation*, 662
 - Posttransplant Management*, 663
 - Transplant Immunology:
 - Immunosuppression and Rejection, 665
 - Immunosuppression*, 665
 - Rejection*, 667
- Lung Transplantation, 667
 - Indications*, 667
 - Candidate Criteria*, 667
 - Donor Criteria*, 667
 - Postoperative Management*, 668
- Kidney Transplantation, 668
 - Indications*, 668
 - Candidate Criteria*, 668
 - Donor Criteria*, 669
 - Postoperative Management*, 669
- Heart Transplantation, 670
 - Indications*, 670
 - Candidate Criteria*, 670
 - Donor Criteria*, 670
 - Postoperative Management*, 670
- Liver Transplantation, 671
 - Indications*, 671
 - Candidate Criteria*, 671
 - Donor Criteria*, 671
 - Postoperative Management*, 671
- Appendix Quality and Safety Education for Nurses (QSEN) Quality and Safety Competencies, 679
