UNIT 1 Foundations for Health Promotion

1 Health Defined: Health Promotion, Protection, and Prevention, 1

Ratchneewan Ross and Carolyn Cable Kleman

Exploring Concepts of Health, 2

- Models of Health, 3*
- Wellness-Illness Continuum, 4*
- High-Level Wellness, 4*
- Health Ecology, 5*
- Functioning, 5*

Health, 5

Illness, Disease, and Health, 6

Planning for Health, 6

Healthy People 2020, 7

- Goals, 7*

Levels of Prevention, 9

- Primordial Prevention, 9*
- Primary Prevention, 11*
- Secondary Prevention, 13*
- Tertiary Prevention, 13*

The Nurse's Role, 13

- Nursing Roles in Health Promotion and Protection, 13*

Improving Prospects for Health, 15

- Population Effects, 15*

Shifting Problems, 15

Moving Toward Solutions, 16

Tying It All Together Using the

- Nursing Process, 16*
- Problem Identification, 16*
- Planning Interventions, 17*
- What Was the Actual Cause of Frank's Problem?, 18*
- Evaluation of the Situation, 18*

2 Emerging Populations and Health, 23

Kevin K. Chui, Frank Tudini, and Sheng-Che Yen

Health Disparities and Health Equality, 23

Emerging Populations in the United States, 24

Ethnicity, Ethnic Group, Minority Group, and Race, 25

Culture, Values, and Value Orientation, 25

Cultural Competency, 26

Folk Healing and Nursing Care Systems, 27

Arab Americans, 28

- Health Care Issues of Arab Americans, 28*
- Selected Health-Related Cultural Aspects, 29*

Asian Americans/Pacific Islanders, 29

- Health Care Issues of Asian Americans/Pacific Islanders, 30*
- Selected Health-Related Cultural Aspects, 30*

Latino/Hispanic Americans, 31

- Health Issues of Latino/Hispanic Americans, 32*
- Selected Health-Related Cultural Aspects, 33*

Black/African Americans, 33

- Health Issues of Black/African Americans, 34*
- Selected Health-Related Cultural Aspects, 34*

American Indians/Alaska Natives, 35

- Health Care Issues of Native Americans, 35*
- Selected Health-Related Cultural Aspects, 36*

The Emerging Rural and Urban Populations:

Homeless Persons, 36

- Homelessness: A Continuing Saga, 36*

The Nation's Response to the

Health Challenge, 39

- Healthy People 2020, 39*
- Office of Minority Health, 39*

Nursing's Response to Emerging Populations and Health, 40

3 Health Policy and the Delivery System, 47

Debora Elizabeth Kirsch

The Health of the Nation, 49

- Healthy People 2020, 49*
- Health Indicators of a Nation, 50*
- Historical Role of Women in Health Promotion, 52*

A Safer System, 53

Global Health, 54

- Historical Perspectives, 54*

History of Health Care, 55

- Early Influences, 55*
- Industrial Influences, 55*
- Socioeconomic Influences, 55*
- Public Health Influences, 55*
- Scientific Influences, 55*
- Special Population Influences, 57*
- Political and Economic Influences, 57*
- Split Between Preventive and Curative Measures, 57*

Organization of the Delivery System, 58

- Private Sector, 58*
- Public Sector, 63*

Financing Health Care, 69

- Costs, 69*
- Sources, 69*
- Employer Health Benefits, 70*
- Mechanisms, 73*
- Managed Care Issues, 74*
- Health Insurance, 74*
- Pharmaceutical Costs, 79*
- The Uninsured: Who are They?, 79*

Health Care Systems of Other Countries, 80

- Canadian Health Care System, 80*

4 The Therapeutic Relationship, 84*June Andrews Horowitz***Values Clarification, 85***Definition, 85**Values and Therapeutic Use of Self, 86***The Communication Process, 87***Function and Process, 88**Types of Communication, 90**Effectiveness of Communication, 91**Interprofessional Communication and Teamwork, 92**Factors in Effective Communication, 93**Health Literacy, 95***The Helping or Therapeutic Relationship, 95***Characteristics of the Therapeutic Relationship, 96**Ethics in Communicating and Relating, 96**Therapeutic Techniques, 97**Barriers to Effective Communication, 99**Setting, 102**Stages, 102***5 Ethical Issues Related to Health Promotion, 108***Christine Sorrell Dinkins***Health Promotion as a Moral Endeavor, 109****Health Care Ethics, 110***Origins of Applied Ethics in Moral Philosophy, 110**Types of Normative Ethical Theories, 110**Limitations of Moral Theory, 111**Feminist Ethics and Caring, 113***Professional Responsibility, 114***Accountability to Individuals and Society, 115**Codes of Ethics, 115**Advocacy, 115**Problem-Solving: Issues, Dilemmas, Risks, and Moral Distress, 116**Preventive Ethics, 116***Ethical Principles in Health Promotion, 117***Autonomy as Civil Liberty, 117**Autonomy as Self-Determination, 118**Exceptions to Autonomous Decision-Making, 120**Confidentiality, 121**Veracity, 123**Nonmaleficence, 123**Beneficence, 124**Justice, 125***Strategies for Ethical Decision-Making, 126***Locating the Source and Levels of Ethical Problems, 126**Values Clarification and Reflection, 126**Decision-Making Considerations, 127***Ethics of Health Promotion: Cases, 128***Case 1: Addressing Health Care System Problems—**Elissa Needs Help, 128**Case 2: She's My Client!—Lilly and "Jake"**(a.k.a. Paul), 128**Case 3: Don't Touch My Things! Ms. Smyth and Autonomy, 128***UNIT 2 Assessment for Health Promotion****6 Health Promotion and the Individual, 132***Anne Rath Rentfro***Gordon's Functional Health Patterns: Assessment of the Individual, 134***Functional Health Pattern Framework, 135**The Patterns, 138**Health Perception–Health Management Pattern, 138**Nutritional–Metabolic Pattern, 140**Elimination Pattern, 140**Activity–Exercise Pattern, 141**Sleep–Rest Pattern, 143**Cognitive–Perceptual Pattern, 144**Self–Perception–Self–Concept Pattern, 145**Roles–Relationships Pattern, 146**Sexuality–Reproductive Pattern, 146**Coping–Stress Tolerance Pattern, 147**Values–Beliefs Pattern, 148***Individual Health Promotion Through the Nursing Process, 149***Collection and Analysis of Data, 149**Planning the Care, 150**Implementing the Plan, 150**Evaluating the Plan, 151***7 Health Promotion and the Family, 154***Anne Rath Rentfro***The Nursing Process and the Family, 156***The Nurse's Role, 156***Family Theories and Frameworks, 156****The Family From a Developmental****Perspective, 158****The Family From a Structural-Functional****Perspective, 159****The Family From a Risk-Factor Perspective, 159****Gordon's Functional Health Patterns: Assessment of the Family, 159***Health Perception–Health Management Pattern, 161**Nutritional–Metabolic Pattern, 162**Elimination Pattern, 162**Activity–Exercise Pattern, 162**Sleep–Rest Pattern, 162**Cognitive–Perceptual Pattern, 163**Self–Perception–Self–Concept Pattern, 163**Roles–Relationships Pattern, 164**Sexuality–Reproductive Pattern, 166**Coping–Stress Tolerance Pattern, 169**Values–Beliefs Pattern, 169***Environmental Factors, 171****Analysis and Nursing Diagnosis, 172***Analyzing Data, 172*

16 **7. Planning With the Family, 177***Goals, 177***Implementation With the Family, 177****Evaluation With the Family, 179****8 Health Promotion and the Community, 183***Anne Rath Rentfro***The Nursing Process and the Community, 186****The Nurse's Role, 186***Influencing Health Policy, 187***Methods of Data Collection, 189****Sources of Community Information, 189****Community From a Systems Perspective, 190***Structure, 190**Function, 190**Interaction, 192***Community From a Developmental Perspective, 192****Community From a Risk-Factor Perspective, 192****Gordon's Functional Health Patterns: Assessment of the Community, 192***Health Perception–Health Management Pattern, 192**Nutritional-Metabolic Pattern, 194**Elimination Pattern, 194**Activity-Exercise Pattern, 194**Sleep-Rest Pattern, 194**Cognitive-Perceptual Pattern, 195**Self-Perception–Self-Concept Pattern, 195**Roles-Relationships Pattern, 195**Sexuality-Reproductive Pattern, 195**Coping–Stress Tolerance Pattern, 196**Values-Beliefs Pattern, 196***Analysis and Diagnosis With the Community, 196***Organization of Data, 196**Guidelines for Data Analysis, 196**Community Diagnosis, 198***Planning With the Community, 200***Purposes, 200**Planned Change, 200***Implementation With the Community, 201****Evaluation With the Community, 201****Ethical Considerations, 214***Borderline Cases and Cutoff Points, 214**Economic Costs and Ethics, 214***Selection of Screenable Populations, 215***Person-Dependent Factors, 215**Environment-Dependent Factors, 217**National Guidance and Health Care Reform, 217***The Nurse's Role, 219****Racial and Ethnic Approaches to Community Health, 220****10 Health Education, 224***Susan A. Heady***Nursing and Health Education, 225***Definition, 226**Goals, 226**Learning Assumptions, 228**Family Health Teaching, 228**Health Behavior Change, 229**Ethics, 230**Genomics and Health Education, 230**Diversity and Health Teaching, 230***Community and Group Health Education, 231****Teaching Plan, 232***Assessment, 232**Determining Expected Learning Outcomes, 233**Selecting Content, 233**Designing Learning Strategies, 234**Evaluating the Teaching-Learning Process, 235**Referring Individuals to Other Resources, 235***Teaching and Organizing Skills, 235****11 Nutrition Counseling for Health Promotion, 239***Myrtle McCulloch and Staci McIntosh***Nutrition in the United States: Looking Forward From the Past, 240***Classic Vitamin-Deficiency Diseases, 240**Dietary Inadequacy, 240**Dietary Excesses, 240***Healthy People 2020:***Nutrition Objectives, 241**Nutrition-Related Health Status, 243**Nutrition Objectives for the United States, 245***Food and Nutrition Recommendations, 245***Dietary Reference Intakes, 245**Dietary Guidelines for Americans**2015–2020, 246***Dietary Supplements and Herbal Medicines, 247***Vitamin and Mineral Toxicity, 248**Circumstances When Nutrient Supplementation Is Indicated, 249***Food Safety, 250***Causes of Food-Borne Illness, 250**Examples of Common Food-Borne Pathogens, 250**Food Safety Practices, 251***UNIT 3 Interventions for Health Promotion****9 Screening, 206***Elizabeth Connelly Kudzma***Advantages and Disadvantages of Screening, 208***Advantages, 208**Disadvantages, 209***Selection of a Screened Disease, 209***Significance of the Disease for Screening, 209**Detection, 210**Should Screening for the Disease Be Done?, 213*

- Food, Nutrition, and Poverty, 252
 - Poverty and Income Distribution, 252
 - Food Assistance for Low-Income Individuals, 252
- Nutrition Screening, 255
- Nutrition Risk Factors, 256
 - Cardiovascular Diseases, 256
 - Heart Disease, 256
 - Hypertension, 258
 - Cancer, 259
 - Osteoporosis, 260
 - Obesity, 262
 - Diabetes, 264
 - Human Immunodeficiency Virus/Acquired Immunodeficiency Syndrome, 266

12 Exercise, 272

Kevin K. Chui, Frank Tudini, and Sheng-Che Yen

- Defining Physical Activity in Health, 272
- Healthy People 2020 Objectives, 273
 - Physical Activity Objectives: Making Progress, 273
 - Aging, 275
 - Effects of Exercise on the Aging Process, 276
- Cardiac Risk Factors, 277
 - High-Density Lipoprotein and Serum Triglyceride Levels, 277
 - Hypertension, 277
 - Hyperinsulinemia and Glucose Intolerance, 279
- Obesity, 280
- Osteoporosis, 282
- Arthritis, 283
- Low Back Pain, 285
- Immune Function, 286
- Mental Health, 287
- Exercise Prescription, 288
 - Aerobic Exercise, 288
 - Warm-Up and Cool-Down Periods, 291
 - Flexibility, 291
 - Resistance Training, 291
- Exercise the Spirit:
 - Relaxation Response, 292
- Monitoring the Inner and the Outer Environment, 293
 - Fluid News, 293
- Special Considerations, 293
 - Coronary Heart Disease, 294
 - Diabetes, 295
- Building a Rhythm of Physical Activity, 296
 - Adherence and Compliance, 297
 - Creating a Climate That Supports Exercise, 297

13 Stress Management, 308

June Andrews Horowitz

- Sources of Stress, 309
- Physical, Psychological, Sociobehavioral, and Spiritual/Homeodynamic Consequences of Stress, 311
 - Physiological Effects of Stress, 311
 - Psychological Effects of Stress, 312

- Sociobehavioral Effects of Stress, 313
- Spiritual Effects of Stress, 313
- Health Benefits of Managing Stress, 313
- Assessment of Stress, 314
- Stress-Management Interventions, 315
 - Developing Self-Awareness, 316
 - Nutrition: Healthy Diet, 319
 - Physical Activity, 320
 - Sleep Hygiene, 320
 - Cognitive-Behavioral Restructuring, 321
 - Affirmations, 322
 - Social Support, 323
 - Assertive Communication, 323
 - Empathy, 324
 - Healthy Pleasures, 324
 - Spiritual Practice, 324
 - Clarifying Values and Beliefs, 325
 - Setting Realistic Goals, 325
 - Humor, 325
 - Engaging in Pleasurable Activities, 326
- Effective Coping, 327

14 Complementary and Alternative Strategies, 331

Donna Dellolacono

- Background, 332
 - Some Known Facts, 332
- What Is the Difference Between Holism and Allopathy?, 333
 - Person-Centered Care, 333
 - Health and Wellness, 334
 - Health Policy, 334
- Interventions, 335
 - Whole Medical Systems, 336
 - Biologically Based Practices/Natural Products, 338
 - Manipulative and Body-Based Practices, 339
 - Mind-Body Medicine, 339
 - Energy Therapies, 340
- Nursing Presence, 343
 - Safety and Effectiveness, 343

UNIT 4 Application of Health Promotion

15 Overview of Growth and Development Framework, 348

Elizabeth Connelly Kudzma

- Overview of Growth and Development, 349
 - Growth, 349
 - Concept of Development, 358
- Theories of Life Span Development, 359
 - Psychosocial Development: Erikson's Theory, 360
 - Cognitive Development, 360
 - Cognitive Development: Piaget's Theory, 360
 - Cognitive Development: Vygotsky's Theory, 361
 - Moral Development: Kohlberg's Theory, 362
 - Moral Development: Gilligan's Theory, 362
- Behavioral Biological Development, 363

16 The Childbearing Period, 366*Susan Scott Ricci***Biology and Genetics, 367***Duration of Pregnancy, 367**Fertilization, 367**Implantation, 367**Fetal Growth and Development, 367**Placental Development and Function, 368**Maternal Changes, 368***Changes During Transition From Fetus to Newborn, 376***Nursing Interventions, 376**Apgar Score, 376**Sex, 376**Race and Culture, 377**Genetics, 377***Gordon's Functional Health Patterns, 378***Health Perception–Health Management Pattern, 378**Nutritional–Metabolic Pattern, 379**Elimination Pattern, 382**Activity–Exercise Pattern, 383**Sleep–Rest Pattern, 383**Cognitive–Perceptual Pattern, 383**Self–Perception–Self–Concept Pattern, 385**Roles–Relationships Pattern, 386**Sexuality–Reproductive Pattern, 387**Coping–Stress Tolerance Pattern, 389**Values–Beliefs Pattern, 389***Environmental Processes, 389***Physical Agents, 389**Biological Agents, 390**Chemical Agents, 394**Mechanical Forces, 397**Radiation, 398***Determinants of Health, 398***Social Factors and Environment, 398**Levels of Policy Making and Health, 399**Health Services/Delivery System, 400***Nursing Application, 401****17 Infant, 407***Susan Scott Ricci***Biology and Genetics, 408***Developmental Tasks, 408**Concepts of Infant Development, 411**Sex, 413**Race, 413**Genetics, 413***Gordon's Functional Health Patterns, 414***Health Perception–Health Management Pattern, 414**Nutritional–Metabolic Pattern, 415**Elimination Pattern, 419**Activity–Exercise Pattern, 420**Sleep–Rest Pattern, 421**Cognitive–Perceptual Pattern, 423**Self–Perception–Self–Concept Pattern, 425**Roles–Relationships Pattern, 425**Sexuality–Reproductive Pattern, 427**Coping–Stress Tolerance Pattern, 428**Values–Beliefs Pattern, 428***Environmental Processes, 429***Physical Agents, 429**Biological Agents, 431**Chemical Agents, 433**Motor Vehicles, 436**Radiation, 437***Determinants of Health, 437***Social Factors and Environment, 437**Levels of Policy Making and Health, 440**Health Services/Delivery System, 441***Nursing Application, 441****18 Toddler, 449***Diane Marie Welsh***Biology and Genetics, 450****Gordon's Functional Health Patterns, 452***Health Perception–Health Management Pattern, 452**Nutritional–Metabolic Pattern, 452**Elimination Pattern, 454**Activity–Exercise Pattern, 454**Sleep–Rest Pattern, 455**Cognitive–Perceptual Pattern, 456**Self–Perception–Self–Concept Pattern, 459**Roles–Relationships Pattern, 460**Sexuality–Reproductive Pattern, 461**Coping–Stress Tolerance Pattern, 462**Values–Beliefs Pattern, 462***Environmental Processes, 462***Physical Agents, 462**Biological Agents, 464**Chemical Agents, 464***Determinants of Health, 465***Social Factors and Environment, 465**Levels of Policy Making and Health, 466**Health Services/Delivery System, 466***Nursing Application, 467****19 Preschool Child, 470***Susan Ann Denninger, Kristi Coker, and Kevin K. Chui***Biology and Genetics, 471***Gender, 472**Race, 472**Genetics, 472***Gordon's Functional Health Patterns, 474***Health Perception–Health Management Pattern, 474**Nutritional–Metabolic Pattern, 474**Elimination Pattern, 476**Activity–Exercise Pattern, 476**Sleep–Rest Pattern, 477**Cognitive–Perceptual Pattern, 479**Self–Perception–Self–Concept Pattern, 484**Roles–Relationships Pattern, 484**Sexuality–Reproductive Pattern, 486**Coping–Stress Tolerance Pattern, 486**Values–Beliefs Pattern, 487*

Environmental Processes, 488

Physical Agents, 488

Biological Agents, 491

Chemical Agents, 492

Cancer, 492

Asthma, 494

Determinants of Health, 494

Social Factors and Environment, 494

Levels of Policy Making and Health, 495

Health Services/Delivery System, 495

Nursing Application, 496

20 School-Age Child, 501

Leslie Kennard Scott

Biology and Genetics, 502

Elevated Blood Pressure, 503

Physical Growth, 503

Gordon's Functional Health Patterns, 504

*Health Perception–Health Management
Pattern, 504*

Nutritional-Metabolic Pattern, 506

Elimination Pattern, 508

Activity-Exercise Pattern, 509

Sleep-Rest Pattern, 510

Cognitive-Perceptual Pattern, 510

Self-Perception–Self-Concept Pattern, 514

Roles-Relationships Pattern, 515

Sexuality-Reproductive Pattern, 517

Coping–Stress Tolerance Pattern, 518

Values-Beliefs Pattern, 519

Environmental Processes, 520

Physical Agents, 520

Accidents, 520

Biological Agents, 523

Chemical Agents, 524

Cancer, 525

Determinants of Health, 525

Social Factors and Environment, 525

Levels of Policy Making and Health, 527

Health Services/Delivery System, 528

Nursing Application, 529

21 Adolescent, 535

Susan Rowen James

Biology and Genetics, 536

Sex and Puberty, 536

Gordon's Functional Health Patterns, 539

*Health Perception–Health Management
Pattern, 539*

Nutritional-Metabolic Pattern, 541

Elimination Pattern, 542

Activity-Exercise Pattern, 542

Sleep-Rest Pattern, 542

Cognitive-Perceptual Pattern, 543

Self-Perception–Self-Concept Pattern, 544

Roles-Relationships Pattern, 545

Sexuality-Reproductive Pattern, 546

Coping–Stress Tolerance Pattern, 548

Values-Beliefs Pattern, 549

Environmental Processes, 549

Physical Agents, 549

Biological Agents, 551

Chemical Agents, 553

Determinants of Health, 554

Social Factors and Environment, 554

Levels of Policy Making and Health, 554

Health Services/Delivery System, 555

Nursing Application, 556

22 Young Adult, 560

Elizabeth Connelly Kudzma

Biology and Genomics, 560

Gordon's Functional Health Patterns, 562

Health Perception–Health Management Pattern, 562

Nutritional-Metabolic Pattern, 568

Elimination Pattern, 569

Activity-Exercise Pattern, 569

Sleep-Rest Pattern, 570

Cognitive-Perceptual Pattern, 570

Self-Perception–Self-Concept Pattern, 571

Roles-Relationships Pattern, 572
