CONTENTS

PART I Fundamental Concepts, 1

1 Overview of Critical Care Nursing, 2 Mary Lou Sole, John Whitcomb, and Lauren Morata Definition of Critical Care Nursing, 2 **Evolution of Critical Care**, 2 **Professional Organizations**, 3 American Association of Critical-Care Nurses, 3 Society of Critical Care Medicine, 3 Other Professional Organizations, 4 Certification, 4 Standards, 4 Critical Care Nurse Characteristics, 4 **Quality and Safety Emphasis**, 5 **Evidence-Based Practice**, 6 Healthy Work Environment, 6 Communication, 7 Collaboration, 8 Collaborative Plan of Care for the Critically Ill Patient, 8 Trends and Issues in Care Delivery, 14 Issues Related to the Critical Care Nurse, 15 2 Patient and Family Response to the Critical Care Experience, 17 Sandra J. Dotson-Kirn and Mary Lou Sole Introduction, 17 The Critical Care Environment, 17 The Critically Ill Patient, 18 Discharge From Critical Care and Quality of Life After Critical Care, 19 Influences on Patients' and Families' Responses, 20 Family Members of the Critically Ill Patient, 20 Family Assessment, 21 Family Needs, 21 Communication, 22 Visitation, 23 Family Presence During Resuscitation and Invasive Procedures, 24 Practice Alerts, 24 3 Ethical and Legal Issues in Critical Care Nursing, 27 Jayne M. Willis and Kathleen Black Introduction, 27 Ethical Obligations and Nurse Advocacy, 27 **Ethical Decision Making**, 28 **Ethical Principles**, 29 Creating an Ethical Environment, 30 Increasing Nurses' Involvement in Ethical Decision Making, 30 Moral Distress and Moral Resilience, 30 Mechanisms to Address Ethical Concerns, 31 Selected Ethical Topics in Critical Care, 32

Informed Consent, 32 Decisions Regarding Life-Sustaining Treatment, 32 End-of-Life Issues, 34 Organ and Tissue Transplantation, 36 4 Palliative and End-of-Life Care, 39 Douglas Houghton Introduction, 39 Effects on Nurses and the Healthcare Team, 40 Dimensions of End-of-Life Care, 41 Palliative Care, 41 - Communication and Conflict Resolution, 41 Withholding, Limiting, or Withdrawing Therapy, 42 Emotional and Psychological Care of the Patient and Family, 46 Caregiver Organizational Support, 47 Culturally Competent End-of-Life Care, 47 5 Organ Donation, 51 Nikki Dotson-Lorello and Deborah G. Klein Introduction, 51 **Organ Donation**, 51 **Types of Organ Donation**, 53 Living Donor and Kidney Paired Exchange Donation, 53 Brain Dead Donor, 55 Organ Donation After Circulatory Death, 57 Care of the Family, 58 Evaluation of the Potential Organ Donor, 59 Donor Management, 60 Organ Recovery, 60 Transplant Candidate Evaluation, 63 Lung Transplant, 63 Kidney Transplant, 63 Heart Transplant, 64 Liver Transplant, 64 1 6 Comfort and Sedation, 67 Mamoona Arif Rahu Introduction, 67 Definitions of Pain and Anxiety, 67 Predisposing Factors to Pain and Anxiety, 67 Physiology of Pain and Anxiety, 68 Pain, 68 Anxietv, 68 Positive Effects of Pain and Anxiety, 69 Negative Effects of Pain and Anxiety, 69 Physical Effects, 69 Psychological Effects, 69 Preventing and Treating Pain and Anxiety, 69 Pain Assessment, 71 Assessment of Agitation and Sedation, 73 Assessment of Delirium, 74 Management of Pain and Anxiety, 76

Nonpharmacological Management, 76 Environmental Manipulation, 76 Complementary and Alternative Therapy, 77 Pharmacological Management, 78 Management Challenges, 87 Invasive Procedures, 87 Substance Abuse, 88 Lifespan Considerations, 88

PART II Tools for the Critical Care Nurse, 93

7 Nutritional Therapy, 94 Lauren Morata and Megan Walsh Introduction, 94 Anatomy and Physiology of the Alimentary Tract, 94 Assessment, 96 Overview of Nutritional Therapy, 97 Preferred Route of Nutrition, 97 Enteral Nutrition, 98 Parenteral Nutrition, 100 Monitoring and Evaluating the Nutrition Care Plan, 102 8 Dysrhythmia Interpretation and Management, 105 Marthe J. Moseley Introduction, 105 Overview of Electrocardiogram Monitoring, 105 Cardiac Physiology Review, 105 Cardiac Electrophysiology, 106 Autonomic Nervous System, 108 The 12-Lead Electrocardiogram, 108 Standard Limb Leads, 109 Augmented Limb Leads, 110 Precordial Leads, 111 Grouping of Leads, 111 Continuous Cardiac Monitoring, 111 Skin Preparation and Lead Placement, 112 Basics of Dysrhythmia Analysis, 113 Measurements, 113 Waveforms and Intervals, 114 Causes of Dysrhythmias, 116 Dysrhythmia Analysis, 117 Rate, 117 Regularity, 119 Measurement of PR, QRS, and QT/QTc Intervals, 119 Morphological Characteristics of Waveforms, 119 Identification of Underlying Rhythm and Any Noted Dysrhythmia, 120 Patient Tolerance of the Rhythm and Clinical Implications of the Rhythm, 120 **Basic Dysrhythmias**, 120 Normal Sinus Rhythm, 121 Dysrhythmias of the Sinoatrial Node, 121 Dysrhythmias of the Atria, 124 Dysrhythmias of the Atrioventricular Node, 129

Dysrhythmias of the Ventricle, 132 Atrioventricular Blocks, 137 Cardiac Pacemakers, 140 Temporary Pacemakers, 141 Permanent Pacemakers, 141 Other Devices With Pacemaker Capabilities, 145 9 Hemodynamic Monitoring, 146 Charly Murphree Introduction, 146 **Review of Anatomy and Physiology**, 146 Cardiovascular System, 146 Principles of Physics, 148 Components of Cardiac Output, 148 Regulation of Cardiovascular Function, 150 Hemodynamic Monitoring Modalities, 151 Noninvasive Monitoring, 151 Invasive Hemodynamic Monitoring, 153 Arterial Pressure Monitoring, 158 Right Atrial Pressure/Central Venous Pressure Monitoring, 159 Pulmonary Artery Pressure Monitoring, 161 Cardiac Output Monitoring, 164 Controversy Surrounding the Pulmonary Artery Catheter, 165 Balancing Oxygen Delivery and Oxygen Demand, 166 Stroke Volume Optimization, 167 **Respiratory Variation to Assess Preload** Responsiveness, 167 Doppler Technology Methods of Hemodynamic Assessment, 168 Pulse Contour Methods of Hemodynamic Assessment, 169 Passive Leg Raising to Assess Preload Responsiveness, 170 10 Ventilatory Assistance, 173 Lynelle N.B. Pierce Introduction, 173 Review of Respiratory Anatomy and Physiology, 173 Upper Airway, 173 Lower Airway, 173 Lungs, 173 Physiology of Breathing, 175 Gas Exchange, 175 Regulation of Breathing, 176 Respiratory Mechanics, 176 Lung Volumes and Capacities, 176 **Respiratory Assessment**, 176 Health History, 177 Physical Examination, 177 Arterial Blood Gas Interpretation, 179 Noninvasive Assessment of Gas Exchange, 183 Oxygen Administration, 185 Humidification, 185 Oxygen Delivery Devices, 185 Airway Management, 187

CONTENTS

Positioning, 187 Oral Airways, 187 Nasopharyngeal Airways, 187 Endotracheal Intubation, 187 Tracheostomy, 192 Endotracheal Suctioning, 194 Mechanical Ventilation, 195 Indications, 195 Positive-Pressure Ventilation, 195 Ventilator Settings, 195 Patient Data, 197 Modes of Mechanical Ventilation, 198 Noninvasive Positive-Pressure Ventilation, 204 High-Frequency Oscillatory Ventilation, 205 Advanced Methods and Modes of Mechanical Ventilation, 205 **Respiratory Monitoring During Mechanical** Ventilation, 205 Complications of Mechanical Ventilation, 206 Nursing Care, 210 Communication, 213 Maintaining Comfort and Reducing Distress, 213 Medications, 213 Nonpharmacological Interventions, 213 Weaning Patients From Mechanical Ventilation, 214 Evidence-Based Approaches to Weaning, 214 Assessment for Readiness to Wean (Wean Screen), 214 Weaning Process (Weaning Trial), 215 Extubation, 217 11 Rapid Response Teams and Code Management, 220 Deborah G. Klein Introduction, 220 Rapid Response Teams, 220 Roles of Caregivers in Code Management, 221 Code Team, 221 Equipment Used in Codes, 223 **Resuscitation Efforts**, 224 Basic Life Support, 225 Advanced Cardiovascular Life Support, 227 Recognition and Treatment of Dysrhythmias, 228 Electrical Therapy, 230 Pharmacological Intervention During a Code, 234 Oxygen, 235 Epinephrine (Adrenalin), 236 Atropine, 237 Amiodarone (Cordarone), 237 Lidocaine (Xylocaine), 237 Adenosine (Adenocard), 238 Magnesium, 238 Sodium Bicarbonate, 238 Dopamine (Intropin), 238

Documentation of Code Events, 239 Care of the Patient After Resuscitation, 241 Targeted Temperature Management After Cardiac Arrest, 242

PART III Nursing Care During Critical Illness, 247

12	Shock, Sepsis, and Multiple Organ Dysfunction
	Syndrome, 248
	Christina Marie Canfield 🗢
	Introduction, 248
	Review of Anatomy and Physiology, 248
	Pathophysiology, 249
	Stages of Shock, 250
	Systemic Inflammatory Response Syndrome, 254
