Notices

Knowledge and best practice in this field are constantly changing. As new research and experience broaden our understanding, changes in research methods, professional practices, or medical treatment may become necessary.

Practitioners and researchers must always rely on their own experience and knowledge in evaluating and using any information, methods, compounds, or experiments described herein. In using such information or methods they should be mindful of their own safety and the safety of others, including parties for whom they have a professional responsibility.

With respect to any drug or pharmaceutical products identified, readers are advised to check the most current information provided (i) on procedures featured or (ii) by the manufacturer of each product to be administered, to verify the recommended dose or formula, the method and duration of administration, and contraindications. It is the responsibility of practitioners, relying on their own experience and knowledge of their patients, to make diagnoses, to determine dosages and the best treatment for each individual patient, and to take all appropriate safety precautions.

To the fullest extent of the law, neither the Publisher nor the authors, contributors, or editors, assume any liability for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions, or ideas contained in the material herein.

UNIT 1 Fundamental Nursing Skills

CHAPTER 1

Foundations of Safe Client Care 1

SECTION 1 Identifying a Client 3

Application of the Nursing Process 3

Critical Concepts: Identifying the Client 3

- SKILL 1.1 Identifying a Client 4

SECTION 2 Preventing Infection 5

Chain of Infection 5

Preventing the Transmission of Infection 6

Application of the Nursing Process 9

Critical Concepts: Preventing Infection 10

- SKILL 1.2 Performing Hand Hygiene With an Alcohol-Based Agent 11
- SKILL 1.3 Performing Hand Hygiene With Soap and Water 12
- SKILL 1.4 Applying and Removing Clean Gloves 14
- SKILL 1.5 Applying and Removing Personal Protective Equipment 15

SECTION 3 Moving Clients Safely 19

Benefits of Proper Client Positioning and Repositioning 19

Ergonomics and Body Mechanics 21

Summary 22

Application of the Nursing Process 23

Critical Concepts: Moving the Client Safely 23

- SKILL 1.6 Positioning a Client in Bed 25
- SKILL 1.7 Moving a Client up in Bed 28
- SKILL 1.8 Transferring a Client From Bed to Chair 30
- SKILL 1.9 Using a Sling Lift to Move a Client 33
- SKILL 1.10 Using a Sit-to-Stand Lift 34
- SKILL 1.11 Transferring Clients Laterally (From Bed to Stretcher) 36
- SKILL 1.12 Moving Clients Who Have Special Precautions (Logrolling) 38

SECTION 4 Using Restraints 39

Defining Restraints 39

Use of Securing Devices 39

Regulations Governing Use of Restraints 39

Application of the Nursing Process 40

Critical Concepts: Using Restraints 41

- SKILL 1.13 Applying and Removing Restraints 42

- SKILL 1.14 Applying a Mummy Restraint 43

CHAPTER 2

Personal Care and Hygiene 49

SECTION 1 Bathing a Client 52

Skin Assessment 52

Skin Care 52

Bathing an Adult 53

Bathing an Infant 54

Application of the Nursing Process 55

Critical Concepts: Bathing the Client 56

- SKILL 2.1 Assisting an Ambulatory Client With Bathing 56
- SKILL 2.2 Changing the Gown of a Client With an IV Line 58
- SKILL 2.3 Bathing an Adult Client in Bed 59
- SKILL 2.4 Providing Alternate Perineal Care 62
- SKILL 2.5 Providing Foot Care 63
- SKILL 2.6 Providing Nail Care 64
- SKILL 2.7 Bathing an Infant 65

SECTION 2 Oral Hygiene 68

Dentures 69

Oral Care in the Acute Care Setting 69

Application of the Nursing Process 70

Critical Concepts: Providing Oral Care 70

- SKILL 2.8 Providing Oropharyngeal Suctioning With a Round-Tip Suction Catheter (Yankauer) 71
- SKILL 2.9 Providing Oral Hygiene for a Conscious Client 72
- SKILL 2.10 Providing Oral Hygiene for an Unconscious Client 73
- SKILL 2.11 Removing, Cleaning, and Inserting Dentures 75

SECTION 3 Providing Hair Care 76

Shaving 76

Lice 76

Application of the Nursing Process 77

Critical Concepts: Providing Hair Care 77

- SKILL 2.12 Shampooing a Nonambulatory Client's Hair 78

- SKILL 2.13 Shampooing a Client With a Dry-Shampoo Cap 79
- SKILL 2.14 Shaving a Client 80
- SKILL 2.15 Caring for a Client With Lice 81

SECTION 4 Eye and Ear Care 82

Application of the Nursing Process 83
 Critical Concepts: Eye and Ear Care 83

- SKILL 2.16 Providing Eye Care for an Unconscious Client 83
- SKILL 2.17 Removing and Cleaning Contact Lenses 84
- SKILL 2.18 Removing, Cleaning, and Inserting an Artificial Eye 85

SECTION 5 Assisting With Elimination 86

Applying Concepts of Safety, Client-Centered Care, Collaboration, and Health Maintenance 86
 Bedside Commode, Urinals, Bedpans, and Condom Catheters 86

Application of the Nursing Process 87
 Critical Concepts: Assisting With Elimination 87

- SKILL 2.19 Assisting a Client Using a Bedside Commode 89
- SKILL 2.20 Assisting a Client Using a Urinal 90
- SKILL 2.21 Assisting a Client Using a Bedpan 90
- SKILL 2.22 Applying a Condom Catheter 92

SECTION 6 Making Beds 93

Types of Beds 93

Types of Mattresses 94

Types of Bedding and Bed Making 94

Application of the Nursing Process 95

Critical Concepts: Changing a Bed 96

- SKILL 2.23 Changing an Unoccupied Bed 96
- SKILL 2.24 Making a Surgical Bed 99
- SKILL 2.25 Changing an Occupied Bed 100

CHAPTER 3

Vital Signs and Vital Measurements 107

Vital Signs 109

SECTION 1 Assessing Temperature 110

Sites and Methods of Temperature Assessment 110

Application of the Nursing Process 111

Critical Concepts: Assessing Temperature 111

- SKILL 3.1 Measuring Temperature With an Electronic Thermometer 112
- SKILL 3.2 Obtaining a Tympanic Temperature 114
- SKILL 3.3 Obtaining a Temperature Using a Temporal Artery Thermometer 115

SECTION 2 Regulating Temperature 116

Regulating Temperature 116

Application of the Nursing Process 117

Critical Concepts: Regulating Temperature 117

- SKILL 3.4 Using Conductive Cooling or Heating Therapy 118
- SKILL 3.5 Using an Infant Radiant Warmer 120

SECTION 3 Assessing Pulses 121

Location and Differentiation of Pulses 121

Apical Pulse 122

Technique for Assessing Pulses 122

Alterations of the Client's Pulse 123

Application of the Nursing Process 123

Critical Concepts: Assessing Pulses 124

- SKILL 3.6 Obtaining a Radial Pulse Rate 124
- SKILL 3.7 Assessing Carotid Pulses 125
- SKILL 3.8 Assessing Peripheral Pulses 126
- SKILL 3.9 Using a Doppler Ultrasound Device to Assess Pulses 128
- SKILL 3.10 Obtaining an Apical Pulse 129
- SKILL 3.11 Obtaining an Apical-Radial Pulse 130

SECTION 4 Assessing Respirations 132

Assessing Respirations in Pediatric Clients 133

Application of the Nursing Process 134

Critical Concepts: Assessing Respirations 134

- SKILL 3.12 Obtaining a Respiratory Rate and Respiratory Assessment 135

SECTION 5 Assessing Blood Pressure 136

Classification of Hypertension 136

Factors Affecting Blood Pressure 136

Measuring Blood Pressure 137

Application of the Nursing Process 140

Critical Concepts: Assessing Blood Pressure 140

- SKILL 3.13 Palpating a Systolic Blood Pressure 141
- SKILL 3.14 Measuring a Systolic and Diastolic Blood Pressure by Auscultation 143
- SKILL 3.15 Measuring Blood Pressure With an Automatic Oscillometric Monitor 144
- SKILL 3.16 Using a Doppler Ultrasound Device to Hear Systolic Blood Pressure 145

Vital Measurements 147

SECTION 6 Assessing Oxygen Saturation 147

Obtaining an SpO₂ Reading 147

Application of the Nursing Process 147

Critical Concepts: Assessing Oxygen Saturation 147

- SKILL 3.17 Obtaining a Pulse Oximeter Measurement 149

SECTION 7 Assessing Blood Glucose 150

- Measuring Blood Glucose With a Glucometer 150
- Application of the Nursing Process 150
- Critical Concepts: Assessing Blood Glucose 150
- SKILL 3.18 Obtaining Capillary Blood Glucose Measurements 151

CHAPTER 4**Performing an Assessment 156**

- The Assessment Process 158

SECTION 1 Collecting Subjective and Objective Data 158

- Collecting Subjective Data 158
- Collecting Objective Data 160
- Performing a Preliminary Survey 162
- Summary 162
- Critical Concepts: Collecting Subjective and Objective Data 162
- SKILL 4.1 Performing a Preliminary Survey 163

SECTION 2 Performing a Head-to-Toe or System-Specific Assessment 164

- Critical Concepts When Performing a Head-to-Toe or System-Specific Assessment 164
- Performing a Rapid Head-to-Toe Bedside Assessment 164
- Performing a System-Specific Assessment 164
- Summary 170
- Critical Concepts: Performing a Head-to-Toe or System-Specific Assessment 170
- SKILL 4.2 Performing a Rapid Head-to-Toe Bedside Assessment 171
- SKILL 4.3 Assessing the Skin/Integumentary System 172
- SKILL 4.4 Assessing the Head (HEENT) and Neck 174
- SKILL 4.5 Assessing the Neurologic System 179
- SKILL 4.6 Assessing the Thorax (Heart and Lungs) 183
- SKILL 4.7 Assessing the Abdomen 187
- SKILL 4.8 Assessing the Musculoskeletal System 190
- SKILL 4.9 Assessing the Genitourinary System 193

CHAPTER 5**Nutrition and Gastrointestinal Tube Therapy 196**

- Essential and Nonessential Nutrients 198
- Macronutrients and Micronutrients 198
- Digestion and Assimilation of Nutrients 198
- Nutritional Guidelines 198
- Alterations That Can Cause Nutritional Deficiencies 198

SECTION 1 Nutritional Assessment 200

- Criteria Used for a Nutritional Screening or Assessment 200

- Assessing and Monitoring a Client's Food and Fluid Intake 200
- Summary 201
- Application of the Nursing Process 201
- Critical Concepts: Nutritional Assessment 201
- SKILL 5.1 Performing a Nutritional Screening 202

SECTION 2 Assisting Clients With Oral Nutrition 203

- Types of Diets 203
- Preparing A Client to Receive a Meal 204
- Assisting A Client Who Has Difficulty Eating 205
- Application of the Nursing Process 205
- Critical Concepts: Assisting Clients With Oral Nutrition 206
- SKILL 5.2 Preparing a Client to Receive a Meal 206
- SKILL 5.3 Assisting Clients With a Physical or Cognitive Impairment 208
- SKILL 5.4 Assisting Clients With Dysphagia or Aspiration Risk 209

SECTION 3 Providing Gastric Tube Therapy 211

- Nasogastric Sump Tube 211
- Levin Tubes and Gastric Lavage Tubes 211
- Placement and Care of a Nasogastric Sump Tube 212
- Summary 215
- Application of the Nursing Process 215
- Critical Concepts: Providing Gastric Tube Therapy 215
- SKILL 5.5 Placement and Care of a Nasogastric (NG) Sump Tube 216
- SKILL 5.6 Initiating and Managing Nasogastric (NG) Sump Tube Suction 220
- SKILL 5.7 Irrigating a Nasogastric (NG) Sump Tube 222
- SKILL 5.8 Discontinuing a Nasogastric (NG) Sump Tube 224

SECTION 4 Providing Enteral Nutrition 225

- Routes of Enteral Feeding 225
- Daily Care for Clients With Gastrostomy, PEG, and Jejunostomy Tubes 228
- Delivery Methods for Enteral Nutrition 229
- Reducing Risks of Enteral Nutrition 230
- Home Care Considerations 230
- Providing Client-Centered Care During Enteral Nutrition 231
- Summary 231
- Application of the Nursing Process 231
- Critical Concepts: Providing Enteral Nutrition 232
- SKILL 5.9 Placement and Care of a Nasally Inserted Small-Bore Feeding Tube 233
- SKILL 5.10 Providing Care for a Client With a Gastrostomy, PEG Tube, or Jejunostomy 235

- SKILL 5.11 Administering a Tube Feeding (Intermittent or Continuous) 239
- SKILL 5.12 Using a Kangaroo Feeding Pump 243

CHAPTER 6

Supporting Mobility and Immobilization 248

SECTION 1 Supporting Mobility 249

Collaborative Care for Clients With Assistive Devices 250

Range of Motion 252

Application of the Nursing Process 252

Critical Concepts: Mobility 252

- SKILL 6.1 Assisting With Ambulation Using a Transfer Belt 253
- SKILL 6.2 Teaching the Client to Use a Cane 254
- SKILL 6.3 Teaching the Client to Use a Walker 256
- SKILL 6.4 Teaching the Client to Use Crutches 257
- SKILL 6.5 Performing Active and Passive Range-of-Motion (ROM) Exercises 261

SECTION 2 Supporting Immobilization 263

Supporting Immobilization of a Limb or Joint 263

Supporting Cervical Immobilization 267

Pin Care 268

Application of the Nursing Process 268

Critical Concepts: Immobilization 268

- SKILL 6.6 Applying a Sling 269
- SKILL 6.7 Applying Bandages 270
- SKILL 6.8 Providing Cast Care 272
- SKILL 6.9 Managing Traction 274
- SKILL 6.10 Providing Pin-Site Care 276
- SKILL 6.11 Applying a Cervical Collar 277
- SKILL 6.12 Managing Halo Traction 278

SECTION 3 Caring for a Client With an Amputation 279

Postoperative Care 280

Communication: Client Education and Collaboration 280

Application of the Nursing Process 281

Critical Concepts: Client With an Amputation 281

- SKILL 6.13 Exercising and Positioning the Residual Limb 281
- SKILL 6.14 Applying a Compression Bandage and Commercial Shrinker to a Residual Limb 283

CHAPTER 7

Comfort Care 288

The Impact of Pain 289

Nociceptive and Neuropathic Pain 290

Acute and Chronic Pain 290

SECTION 1 Assessment of Pain and Discomfort 291

Subjective and Objective Assessment of Pain 291

Examples of Pain Tools Used for Assessment of Pain 291

Assessment of Pain for Diverse Populations 292

Lifespan Considerations: Older Adults and Pediatric Clients 292

Summary of Best Practice Recommendations for Assessment of Pain 293

Summary of Application of Critical Concepts for Assessment of Pain 293

Application of the Nursing Process 293

Critical Concepts: Assessment of Pain and Discomfort 293

- SKILL 7.1 Performing a Pain Assessment 294

SECTION 2 Using Relaxation Measures to Promote Comfort 295

Enhancing the Client's Environment 296

Controlled Breathing 296

Guided Imagery 296

Massage Therapy 296

Summary 296

Application of the Nursing Process 297

Critical Concepts: Using Relaxation Measures to Promote Comfort 297

- SKILL 7.2 Enhancing a Client's Environment 298
- SKILL 7.3 Assisting a Client With Controlled-Breathing Exercises 299
- SKILL 7.4 Assisting a Client With Guided Imagery Exercises 299
- SKILL 7.5 Providing a Back Massage 300

SECTION 3 Using a TENS Unit to Promote Comfort 302

Application of the Nursing Process 303

Critical Concepts: Using a TENS Unit to Promote Comfort 303

- SKILL 7.6 Applying and Discontinuing a TENS Unit 304

SECTION 4 Using Heat or Cold to Promote Comfort 306

Safety Considerations and Precautions for Heat and Cold Therapy 306

Different Types of Heat and Cold Therapy 306

Summary 308

Application of the Nursing Process 308

Critical Concepts: Using Heat or Cold to Promote Comfort 308

- SKILL 7.7 Using a Heat or Cold Pack (Instant or Reusable) 309
- SKILL 7.8 Using an Ice Bag 311

- SKILL 7.9 Using a Portable Sitz Bath 312
- SKILL 7.10 Using Localized Circulating (Aqua) Heat or Cold Therapy 314

SECTION 5 Using Patient-Controlled Analgesia to Promote Comfort 316

- Safety Considerations When Using PCA Therapy 316
- Summary 318
- Application of the Nursing Process 319
- Critical Concepts: Using Patient-Controlled Analgesia to Promote Comfort 319
- SKILL 7.11 Assessing a Client for Appropriateness of PCA Therapy 320
- SKILL 7.12 Initiating and Managing PCA Therapy 321
- SKILL 7.13 Teaching the Client and Family About PCA Therapy 323
- SKILL 7.14 Discontinuing PCA Therapy 324

SECTION 6 Using Epidural Analgesia to Promote Comfort 325

- Safety Considerations for Epidural Catheters 325
- Potential Complications of Epidural Catheters 326
- Summary 326
- Application of the Nursing Process 326
- Critical Concepts: Using Epidural Analgesia to Promote Comfort 327
- SKILL 7.15 Caring for a Client With an Epidural Catheter 327
- SKILL 7.16 Assisting With Removal of an Epidural Catheter 329

CHAPTER 8

End-of-Life Care 335

- Definition of End of Life 336

- End-of-Life Care and Palliative Care 336
- Nursing Initiatives and End-of-Life Care 337

SECTION 1 Bereavement and Spiritual Care 338

- Caring for a Client and Family Who Are Grieving 338
- Theories of Grieving 338
- Types of Grief 339
- Children and Grief 340
- Nurses and Grief 340
- Providing Spiritual Care for a Client and Family 341
- Summary 343
- Application of the Nursing Process 343
- Critical Concepts: Bereavement and Spiritual Care 343
- SKILL 8.1 Caring for a Client and Family Who Are Grieving 344
- SKILL 8.2 Providing Spiritual Care for a Client and Family 345

SECTION 2 Assisting a Client and Family With Advance Care Planning 346

- Tools Used for Advance Care Planning 346
- Application of the Nursing Process 347
- Critical Concepts: Assisting With Advance Care Planning 347
- SKILL 8.3 Assisting With Advance Directives and Do-Not-Resuscitate (DNR) Orders 348

SECTION 3 Caring for a Client Near the End of Life 349

- Application of the Nursing Process 349
- Critical Concepts: Caring for a Client Near the End of Life 350
- SKILL 8.4 Providing Physical Care for a Client Who Is Dying 350

SECTION 4 Caring for a Client After Death 352

- Application of the Nursing Process 353
- Critical Concepts: Caring for a Client After Death 353
- SKILL 8.5 Providing Postmortem Care 354

UNIT 2 Intermediate Nursing Skills

CHAPTER 9

Airway and Breathing 360

SECTION 1 Maintaining the Health of the Respiratory System 362

- Deep Breathing and Coughing 363
- Incentive Spirometry 363
- Chest Physiotherapy 363
- Respiratory System-Specific Assessment 364
- Application of the Nursing Process 364
- Critical Concepts: Maintaining the Health of the Respiratory System 364

- SKILL 9.1 Instructing a Client in Deep-Breathing and Coughing Exercises 365
- SKILL 9.2 Instructing a Client to Use Incentive Spirometry 366
- SKILL 9.3 Performing Chest Physiotherapy (CPT) 367

SECTION 2 Administering Oxygen 371

- Impaired Gas Exchange 371
- Using a High-Pressure Oxygen Cylinder 372
- Administering Supplemental Oxygen 372

- Summary 377
- Application of the Nursing Process 377
- Critical Concepts: Administering Oxygen 377
- SKILL 9.4 Using a High-Pressure Oxygen Cylinder 378
- SKILL 9.5 Using an Oxygen Flowmeter 379
- SKILL 9.6 Placing a Client on Oxygen by Nasal Cannula 380
- SKILL 9.7 Placing a Client on Oxygen by Face Mask 381
- SKILL 9.8 Placing a Client on Continuous Positive Airway Pressure (CPAP) 382

SECTION 3 Establishing and Maintaining an Open Airway 383

- Oropharyngeal Airway 383
- Nasopharyngeal Airway 384
- Nasopharyngeal Suctioning 384
- Tracheostomy 384
- Suctioning an Artificial Airway 387
- Collecting Sputum Samples 390
- Summary 390
- Application of the Nursing Process 390
- Critical Concepts: Establishing and Maintaining an Open Airway 390
- SKILL 9.9 Inserting an Oropharyngeal Airway 391
- SKILL 9.10 Inserting a Nasopharyngeal Airway 392
- SKILL 9.11 Performing Nasopharyngeal Suctioning 393
- SKILL 9.12 Suctioning an Artificial Airway: Tracheostomy or Endotracheal Tube 395
- SKILL 9.13 Obtaining a Sputum Sample From a Client With an Artificial Airway 399
- SKILL 9.14 Cleaning a Tracheostomy and Replacing Tracheostomy Ties 401

CHAPTER 10

Sterile Technique 408

SECTION 1 Preparing a Sterile Field 410

- Application of the Nursing Process 411
- Critical Concepts: Preparing a Sterile Field 411
- SKILL 10.1 Opening a Sterile Pack 412
- SKILL 10.2 Applying and Removing Sterile Gloves 413
- SKILL 10.3 Opening a Sterile Barrier and Setting Up a Sterile Field 416
- SKILL 10.4 Adding Sterile Items to a Sterile Field and Draping a Sterile Field 417
- SKILL 10.5 Pouring a Sterile Liquid 418

SECTION 2 Preparing to Enter a Sterile Perioperative Setting 420

- Surgical Attire 420
- Surgical Hand Antisepsis 420

- Surgical Gowns and Gloves 422
- Application of the Nursing Process 422
- Critical Concepts: Preparing to Enter a Sterile Perioperative Area 423
- SKILL 10.6 Performing a Surgical Handrub 423
- SKILL 10.7 Performing a Surgical Hand Scrub 424
- SKILL 10.8 Performing Surgical Gowning 426
- SKILL 10.9 Performing Closed Surgical Gloving 427

CHAPTER 11

Medication Administration 431

- Medication Safety Initiatives 433
- Rights of Medication Administration 433
- Safely Processing Medication Orders 433
- Performing Preassessments 434
- Safely Preparing and Distributing Medications 434
- Performing Safety Checks 435
- Safety Considerations for High-Alert Medications 435
- Performing Dosage Calculation 436

SECTION 1 Administering Oral Medications 438

- Types of Oral Medications 438
- Crushing/Altering Oral Medications 438
- Preparing and Administering Oral Medications 439
- Best-Practice Recommendations 439
- Pediatric Considerations 440
- Home Care and Geriatric Considerations 440
- Summary 440
- Application of the Nursing Process 441
- Critical Concepts: Administering Oral Medications 441
- SKILL 11.1 Administering Oral Medications (Tablets, Capsules, or Liquids) 442

SECTION 2 Administering Enteral Medications 445

- Application of the Nursing Process 446
- Critical Concepts: Administering Enteral Medications 446
- SKILL 11.2 Administering a Medication Through a Nasogastric (NG) Tube or Enteral Device 447

SECTION 3 Administering Mucous Membrane Applications 451

- Sublingual and Buccal Medications 451
- Nasal Instillations 451
- Inhalers and Nebulizers 451
- Rectal and Vaginal Administration 452
- Application of the Nursing Process 452
- Critical Concepts: Administering Mucous Membrane Applications 452
- SKILL 11.3 Administering Sublingual or Buccal Medications 453
- SKILL 11.4 Administering a Nasal Spray Medication 455
- SKILL 11.5 Administering Inhaled Medications 457
- SKILL 11.6 Administering Nebulized Medications 460

- SKILL 11.7 Administering a Rectal Suppository 461
- SKILL 11.8 Administering Vaginal Medications 463

SECTION 4 Administering Topical Medications 465

- Topical Medications for Localized Effect 465
- Transdermal Medications for Systemic Effect 465
- Eye and Ear Medications 465
- Application of the Nursing Process 466
- Critical Concepts: Administering Topical Medications 466
- SKILL 11.9 Applying a Transdermal Patch 467
- SKILL 11.10 Administering an Eye Medication (Drops or Ointment) 469
- SKILL 11.11 Irrigating the Eyes 471
- SKILL 11.12 Instilling Ear (Otic) Drops 473

SECTION 5 Administering Parenteral Medications 45

- Preparing Equipment for Injections 475
- Components of a Needle and Syringe 475
- Using Safety and Needleless Systems 476
- Preparing Medications 477
- Administering Injections 477
- Administering Intradermal Injections 478
- Administering Subcutaneous Injections 479
- Administering Intramuscular Injections 479
- Administering Insulin 481
- Summary 483
- Application of the Nursing Process 483
- Critical Concepts: Administering Parenteral Medications 484
- SKILL 11.13 Preparing a Medication From a Vial 484
- SKILL 11.14 Preparing a Medication From an Ampule 487
- SKILL 11.15 Preparing a Medication That Requires Reconstitution 489
- SKILL 11.16 Administering an Intradermal Injection 490
- SKILL 11.17 Administering a Subcutaneous Injection 453
- SKILL 11.18 Administering an Intramuscular Injection 495
- SKILL 11.19 Administering a Subcutaneous Insulin Injection 499
- SKILL 11.20 Caring for a Client With a Subcutaneous Insulin Pump (External) 501

CHAPTER 12

Venous Access 506

SECTION 1 Collecting Venous Blood Specimens 508

- Ensuring Accuracy 508
- Selecting a Vein 510

- Application of the Nursing Process 511
- Critical Concepts: Collecting Venous Blood Specimens 511

- SKILL 12.1 Selecting a Vein 512
- SKILL 12.2 Obtaining Venous Blood Specimens 513

SECTION 2 Initiating, Dressing, and Discontinuing a Peripheral Intravenous Catheter 518

- Selecting a Vein 518
- Application of the Nursing Process 522
- Critical Concepts: Initiating a Peripheral Intravenous Line 523
- SKILL 12.3 Inserting and Dressing a Peripheral Intravenous Catheter 524
- SKILL 12.4 Changing a PIV Dressing 527
- SKILL 12.5 Discontinuing a Peripheral Intravenous Catheter 528

SECTION 3 Intravenous Fluids 529

- Monitoring Intake and Output 529
- Types of Intravenous Fluids 529
- Infection Control 530
- Safety and the Rights of Intravenous Fluid Administration 530
- Intravenous Fluid Administration Sets 530
- Priming Administration Sets and Bubble Management 531
- Infusing Fluids 531
- Application of the Nursing Process 532
- Critical Concepts: Infusing Intravenous Fluids 532
- SKILL 12.6 Managing a Saline Lock 533
- SKILL 12.7 Preparing a Primary Intravenous Infusion 534
- SKILL 12.8 Replacing Intravenous Infusion Fluid 536

SECTION 4 Administering Intravenous Medications 537

- Orders for Intravenous Medications 538
- Nursing Responsibilities 538
- Medication Preparation and Equipment 538
- Complications of Intravenous Medication Administration 539
- Application of the Nursing Process 539
- Critical Concepts: Administering Intravenous Medications 539
- SKILL 12.9 Administering Intermittent Intravenous Medication via Secondary Infusion 540
- SKILL 12.10 Administering Intravenous Medication via Intravenous Push 543

SECTION 5 Administering a Blood Transfusion 545

- Different Types of Blood Components 545
- Types of Blood Transfusions 545

- ABO Compatibility System 545
- Safety Considerations 546
- Equipment Used for a Blood Transfusion 547
- Procedure for Administering a Blood Transfusion 547
- Possible Complications 548
- Application of the Nursing Process 549
- Critical Concepts: Administering a Blood Transfusion 549
 - SKILL 12.11 Administering Packed Red Blood Cells (PRBCs) 550

CHAPTER 13

Central Venous Access 557

SECTION 1 Caring for a Client With a CVAD 558

- Tunneled Catheters 558
- Nontunneled Catheters 559
- Implanted Ports 560
- Power-Injection Capable 560
- Assisting With Insertion 560
- Complications of CVADs 560
- Drawing Blood From a CVAD 562
- Care for a Client With a Subcutaneous Port: Accessing and Deaccessing 563
- Discontinuing a CVAD 563
- Critical Concepts and CVADs 563
- Application of the Nursing Process 565
- Critical Concepts: Caring for A Client With a CVAD 566
 - SKILL 13.1 Assisting With Insertion 566
 - SKILL 13.2 Flushing Central Venous Access Devices 568
 - SKILL 13.3 Changing the CVC or PICC Line Dressing 569
 - SKILL 13.4 Changing the Needleless Connectors for a CVC/PICC Line 571
 - SKILL 13.5 Collecting Blood Specimens/Blood Cultures 572
 - SKILL 13.6 Managing Subcutaneous Ports: Accessing, Changing the Dressing, and Deaccessing 574
 - SKILL 13.7 Discontinuing a Central Line 576

SECTION 2 Infusing Fluids With a CVAD 577

- Infusing Fluids 577
- Application of the Nursing Process 578
- Critical Concepts: Infusing Fluids Through a CVAD 578
 - SKILL 13.8 Infusing IV Fluids 579
 - SKILL 13.9 Initiating TPN and/or Lipids 581

CHAPTER 14

Bowel Management 585

SECTION 1 Supporting Healthy Bowel Elimination 587

- Characteristics of Stool 586
- Bowel Elimination Problems 588

- Application of the Nursing Process 589
- Critical Concepts: Supporting Healthy Bowel Elimination 589
 - SKILL 14.1 Performing Digital Stimulation and Evacuation 591
 - SKILL 14.2 Inserting Rectal Tubes 592
 - SKILL 14.3 Applying a Fecal Collection Pouch 593
 - SKILL 14.4 Setting Up a Fecal Management System 594

SECTION 2 Administering Enemas 596

- Application of the Nursing Process 596
- Critical Concepts: Administering Enemas 597
 - SKILL 14.5 Administering a Cleansing Enema 597
 - SKILL 14.6 Administering a Commercially Prepared Enema 599

SECTION 3 Collecting Specimens 601

- Application of the Nursing Process 602
- Critical Concepts: Collecting Specimens 602
 - SKILL 14.7 Collecting a Stool Specimen 603
 - SKILL 14.8 Obtaining a Stool Specimen for Occult Blood 604

SECTION 4 Caring for a Client With a Bowel Diversion 606

- Care of the Stoma and Peristomal Skin 607
- Irrigating a Colostomy 608
- Cecostomy 608
- Application of the Nursing Process 609
- Critical Concepts: Caring for a Client With a Bowel Diversion 609
 - SKILL 14.9 Pouching a Stoma 609
 - SKILL 14.10 Irrigating an Ostomy 611

CHAPTER 15

Urine Elimination 617

Urine Elimination 618

SECTION 1 Collecting Urine Measurements and Specimens 620

- Assessing Production and Volume of Urine 620
- Collecting Specimens 620
- Application of the Nursing Process 622
- Critical Concepts: Obtaining Urine Measurements and Specimens 623
 - SKILL 15.1 Measuring and Recording Intake and Output 623
 - SKILL 15.2 Measuring Urine Volume With a Portable Bladder Scanner 625

- SKILL 15.3 Obtaining a Urine Specimen From a Closed Urinary Drainage System 626
- SKILL 15.4 Obtaining a Urine Specimen Using the Clean-Catch Method 627
- SKILL 15.5 Obtaining a 24-Hour Urine Specimen 629
- SKILL 15.6 Obtaining a Bagged Urine Specimen From an Infant or Child 630

SECTION 2 Urine Elimination With a Transurethral Catheter 631

- Types of Transurethral Catheters 633
- Infection Control With Urinary Catheters 633
- Communication and Urinary Catheters 634
- Providing Client-Centered Care to Specific Populations 635
- Bladder Irrigation 636
- Application of the Nursing Process 637
- Critical Concepts: Urine Elimination With a Transurethral Catheter 637
- SKILL 15.7 Inserting and Removing a Straight Catheter in a Female Client 638
- SKILL 15.8 Inserting and Removing a Straight Catheter in a Male Client 641
- SKILL 15.9 Inserting an Indwelling Foley Catheter in a Female Client 644
- SKILL 15.10 Inserting an Indwelling Foley Catheter in a Male Client 647
- SKILL 15.11 Removing an Indwelling Foley Catheter 650
- SKILL 15.12 Managing an Indwelling Foley Catheter 651
- SKILL 15.13 Performing Intermittent Closed Bladder Irrigation 652
- SKILL 15.14 Performing Continuous Closed Bladder Irrigation 653

SECTION 3 Urine Elimination With a Urinary Diversion 655

- Suprapubic Catheter 655
- Urinary Diversions 657
- Application of the Nursing Process 658
- Critical Concepts: Urine Elimination With a Urinary Diversion 658
- SKILL 15.15 Providing Suprapubic Catheter Care 659
- SKILL 15.16 Changing a Stoma Appliance on an Ileal Conduit 660
- SKILL 15.17 Catheterizing and Irrigating a Continent Urostomy 662

CHAPTER 16

Wound Care 667

SECTION 1 Providing Wound Care 668

- Wound Types 668
- The Impact of Wounds 669
- Client Considerations 669

Wound Assessment 671

Wound Care 671

- Collecting Wound Specimens 673
- Managing Complex Wounds 673
- Dressing Selection and Application 674
- Application of the Nursing Process 675
- Critical Concepts: Providing Wound Care 675
- SKILL 16.1 Dressing Change for a Primary-Intention Wound 676
- SKILL 16.2 Collecting Wound Specimens 678
- SKILL 16.3 Removing Sutures and Staples 679
- SKILL 16.4 Dressing a Partial- or Full-Thickness Wound 680

SECTION 2 Managing Wound Drainage 682

- Drains and Negative-Pressure Wound Therapy 682
- Application of the Nursing Process 684
- Critical Concepts: Managing Wound Drainage 684
- SKILL 16.5 Managing a Penrose Drain 685
- SKILL 16.6 Emptying a Jackson-Pratt (JP) Drain or Hemovac 686
- SKILL 16.7 Negative-Pressure Wound Therapy (NPWT) 688

SECTION 3 Preventing and Treating Pressure Injury and Venous and Diabetic Ulcers 690

- Pressure Injury 690
- Venous Ulcers 690
- Preventing Diabetic Ulcers 694
- Application of the Nursing Process 695
- Critical Concepts: Preventing and Treating Pressure Injury and Venous and Diabetic Ulcers 695
- SKILL 16.8 Applying Compression Dressings or Unna Boot 695
- SKILL 16.9 Foot Examination and Monofilament Testing 697
- SKILL 16.10 Measuring the Ankle-Brachial Index (ABI) 698

CHAPTER 17

Perioperative Care 703

SECTION 1 Providing Preoperative Education and Care 704

- Factors Affecting Surgical Risks 704
- Nursing History and Physical Examination 705
- Cultural Considerations 706
- Informed Consent 706
- Preoperative Teaching 707
- Application of the Nursing Process 707
- Critical Concepts: Preoperative Care 707
- SKILL 17.1 Preparing a Client for Surgery 708
- SKILL 17.2 Instructing Client on Thrombosis Prevention 709

SECTION 2 Providing Intraoperative Care 711

- Roles of the Surgical Team 711
- Surgical Verification 711
- Client Positioning 711
- Maintaining Safety: Latex Sensitivity/Allergy 711
- Types of Anesthesia 712
- Preparing the Client's Skin 714
- Closing the Wound 714
- Application of the Nursing Process 714

SECTION 3 Managing Postoperative Care 715

- Postoperative Nursing Care 715
- Postoperative Assessment 715

- Postoperative Teaching 719
- Application of the Nursing Process 719
- Critical Concepts: Providing Postoperative Care 719
 - SKILL 17.3 Admitting a Postoperative Client 721
 - SKILL 17.4 Applying Pressure Dressings to Control Bleeding 722
 - SKILL 17.5 Applying and Removing Antiembolism Stockings 723
 - SKILL 17.6 Managing Sequential Compression Devices 724
 - SKILL 17.7 Managing Continuous Passive Motion 725

UNIT 3 Advanced Nursing Skills**CHAPTER 18****Advanced Respiratory Management 729****SECTION 1 Caring for a Client With Invasive Mechanical Ventilation 730**

- The Airway: Endotracheal Tubes 731
- Providing Mechanical Ventilation 733
- Nursing Care for Clients Who Are Receiving Mechanical Ventilation 734
- Reducing the Risk of Complications of Mechanical Ventilation 737
- Application of the Nursing Process 738
- Critical Concepts: Caring for a Client With Invasive Mechanical Ventilation 739
 - SKILL 18.1 Caring for a Client Receiving Mechanical Ventilation 739
- Arterial Blood Gases 742
- Acid-Base Imbalances 742

SECTION 2 Caring for a Client Who Requires Arterial Blood Gas Sampling 743

- Indwelling Arterial Catheter Sampling 743
- Arterial Puncture Sampling 744
- Application of the Nursing Process 746
- Critical Concepts: Arterial Blood Gas Sampling 746
 - SKILL 18.2 Obtaining Arterial Blood Gases From a Peripheral Arterial Line 746
 - SKILL 18.3 Obtaining Arterial Blood Gases From the Radial Artery 749

SECTION 3 Caring for a Client With a Chest Tube 751

- Chest Drainage Systems 752
- Caring for the Client With a Chest Tube and Chest Drainage System 753

Troubleshooting the Chest Tube and Drainage System 755

- Application of the Nursing Process 755
- Critical Concepts: Caring for a Client With a Chest Tube 756
 - SKILL 18.4 Assisting With Chest Tube Insertion 757
 - SKILL 18.5 Maintaining a Chest Tube System and Performing an Occlusive Dressing Change 759
 - SKILL 18.6 Assisting With Removal of a Chest Tube 761

CHAPTER 19**Advanced Cardiovascular Care 767****Cardiovascular System 769****SECTION 1 Caring for a Client on Cardiac Monitoring 770**

- Cardiac Conduction System 770
- The ECG Tracing 771
- Equipment Used in ECG Monitoring 772
- Lead Placement for ECG Monitoring 773
- Types of ECG Monitoring 774
- Performing a 12-Lead ECG 774
- Possible Safety and Technical Issues With ECG Monitoring 774
- Summary 775
- Application of the Nursing Process 775
- Critical Concepts: Caring for a Client on Cardiac Monitoring 776
 - SKILL 19.1 Placing a Client on a Continuous ECG Monitor (Hardwire or Telemetry) 778
 - SKILL 19.2 Performing a Diagnostic 12-Lead ECG 781

SECTION 2 Caring for a Client With a Dysrhythmia or Altered Cardiac Conduction 784

- Dysrhythmias and Conduction Disorders 784
- Using Synchronized Cardioversion 785
- Summary 786
- Application of the Nursing Process 786
- Critical Concepts: Caring for a Client With a Dysrhythmia or Altered Cardiac Conduction 786
- SKILL 19.3 Performing or Assisting With Elective Cardioversion 787

SECTION 3 Caring for a Client With a Cardiac Pacemaker 790

- Cardiac Pacemakers 790
- How a Pacemaker Works: Major Functions and Components 790
- Types of Pacemakers 790
- Temporary Pacemakers 791
- Permanent Pacemakers 792
- Possible Complications/Safety Issues With Pacemakers 793
- Application of the Nursing Process 793
- Critical Concepts: Caring for a Client With a Pacemaker 793
- SKILL 19.4 Caring for a Client With a Transcutaneous Pacemaker (TCP) 794
- SKILL 19.5 Caring for a Client With a Transvenous Pacemaker (TVP) 797

SECTION 4 Caring for a Client With a Cardiac Emergency 798

- Caring for a Client With Ischemic Chest Pain 798
- Emergency Cardiac Catheterization 799
- Providing Emergency Defibrillation 800
- Caring for a Client Who Is in Cardiac Arrest 800
- Application of the Nursing Process 802
- Critical Concepts: Caring for a Client With a Cardiac Emergency 802
- SKILL 19.6 Caring for a Client With Acute Ischemic Chest Pain 803
- SKILL 19.7 Caring for a Client After an Emergency Cardiac Catheterization 805
- SKILL 19.8 Providing Emergency (Asynchronous) Manual Defibrillation 806
- SKILL 19.9 Responding to a Client (Adult) in Cardiac Arrest 808

CHAPTER 20

Advanced Neurologic Care 812

- Intracranial Processes 813
- Major Neurologic Injuries: Traumatic and Nontraumatic 815

SECTION 1 Advanced Neurologic Assessment 816

- Performing a Neurologic Assessment 816
- Assessment of Level of Consciousness 816
- Assessment of Pupillary Response and Function 817
- Using a Pupillometer Device for Assessment of Pupils 817
- Assessment of Verbal Response and Function 818
- Assessment of Motor and Sensory Function 818
- Assessment of Deep Tendon Reflexes 819
- Lifespan Considerations 819
- Diagnostic Procedures 820
- Summary 821
- Application of the Nursing Process 821
- Critical Concepts: Advanced Neurologic Assessment 821
- SKILL 20.1 Performing a Neurologic Assessment 822
- SKILL 20.2 Using a Pupillometer 824
- SKILL 20.3 Assisting With a Lumbar Puncture (LP) 826

SECTION 2 Caring for a Client With Increased Intracranial Pressure (ICP) 828

- Interventions for Clients With Increased ICP 828
- Caring for a Client With an External Ventricular Drain and Performing ICP Monitoring 828
- Summary 831
- Application of the Nursing Process 831
- Critical Concepts: Caring for a Client With Increased Intracranial Pressure 831
- SKILL 20.4 Caring for a Client With an External Ventricular Drain (EVD) and Obtaining Intracranial Pressure (ICP) Readings 832

SECTION 3 Caring for a Client With a Neurologic Emergency 833

- Caring for a Client Who Is Having a Seizure 833
- Caring for a Client Who May Be Having an Acute Stroke 833
- Summary 835
- Application of the Nursing Process 835
- Critical Concepts: Caring for a Client With a Neurologic Emergency 836
- SKILL 20.5 Caring for a Client Who Requires Seizure Precautions 836
- SKILL 20.6 Assessing a Client Who May Be Having an Acute Stroke 838

ILLUSTRATION CREDITS 842

INDEX 846
